PLANT AMERICA

Howard C. Taylor, President

The great movement to PLANT AMERICA growing constantly throughout this country is one in which we are proud to participate. From planting America everyone for generations to come may profit. To make the land more fruitful, more pleasing for better living and to preserve soil and scenery is, I am sure, a program in which we all want to take part. We are proud of our part in planting America—to make available the finest in plant materials, carefully grown, fully rooted and conveyed in a live, healthy, vigorous, ready-to-grow condition to you, our customers. We are constantly striving to improve the plants we sell.

Another part we play is to advise and help you in selection and placement of planting for best results. Our salesmen are trained horticulturists and ready to help. Our sales yard has thousands of ready-to-go plants for your selection. This increasingly popular economical method of plant purchasing offers many advantages and you can save time and labor costs this way.

For major landscape plantings you may avail yourself of our planning service. (See Rosedale's Planning Service on page 18.)

This, our 54th year, offers more than ever before and we look forward to seeing you.

Howard C. Taylor
President

THERE ARE NO BETTER ROSES
THAN THESE FIVE FAMOUS
TOP-AWARD WINNERS!

Sutter's Gold (Pat. No. 885)

Mirandy (Pat. No. 632)

Mirandy (Plant Pat. No. 632). Maroon-red of unusual texture. Extremely large and very double. Very fragrant. \$1.75 each.

Sutter's Gold (Plant Pat. No. 885). Bright warm yellow suffused with red. Most fragrant of all yellow Roses. Exceedingly vigorous. \$2.25 each.

Tallyho (Plant Pat. No. 828). Unusual pink with outside of petals almost crimson. Full, very double. Rich, spicy fragrance. \$2.00 each.

Tallyho (Pat. No. 828)

A Rose Garden Designed and Planted by Rosedale

Glorious Roses for Your Garden

Exciting Colors—Hardy Varieties

Plant **ROSEDALE ROSES** with confidence. All varieties are hardy in this area, well-rooted and well-budded.

When planting: Select well-drained soil; dig the hole large enough to accept roots easily; fill in half of the soil and tamp down; water thoroughly; fill in balance of soil, mixed with liberal quantity of Farmanure or Agrico Rose Food, heaping soil in 6-inch mound around plant. Level this mound when growth starts. It is really very simple—even for the most timid beginner.

We suggest April planting but you may order early, and shipment will be made at the proper time.

Outside our delivery area, Roses are shipped by parcel post at our expense.

EVERBLOOMING HYBRID TEA ROSES

CONTINUOUS BLOOMS IN PROFUSION FROM JUNE TO FALL
SELECTED, 2-YEAR-OLD STOCK—FIELD-GROWN—NO. 1 GRADE

\$1.25 each Three for \$3.45 Five for \$5.65 Dozen \$12.75

Caledonia. Large, WHITE, very double. Hardy. Striking.

Christopher Stone. Velvety SCARLET-CRIMSON. Very fragrant. Very effective.

Condesa de Sastago. Coppery PINK TWO-TONE with golden tint. Raspberry fragrance. Always a favorite.

Dame Edith Helen. A glorious, glowing PINK. Large, full, intensely fragrant.

Duquesa De Penaranda. BI-COLOR. COPPER-APRICOT. Long stemmed and very fragrant. Handsome.

Edith Nellie Perkins. TWO-TONE. Salmon-pink inside, coppery-pink outside. Large, profuse blooms.

Frau Karl Druschki. SNOW-WHITE. Very large, double, open. Scentless.

K. A. Viktoria. PEARL-WHITE, lemon-yellow center. Very fragrant. Fine for accent.

Margaret McGredy. ORANGE-SCARLET. Very large, double, unfading. Constant bloomer. Fragrant.

Mme. Joseph Perraud. NASTURTIUM-BUFF. with touch of pale pink. Sweetly fragrant. Very popular.

Mrs. E. P. Thom. Deep CANARY-YELLOW. Unfading; fragrant. Beautiful form.

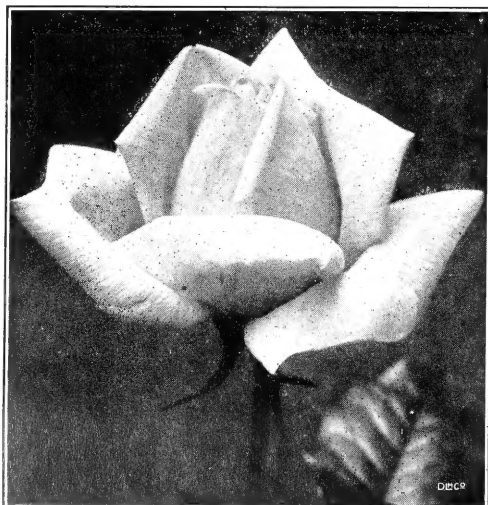

Pink Dawn. Deep ROSE-PINK opening to bright pink. Fragrant. Vigorous grower. Full-flowered.

Pres. Hoover. BI-COLOR. Large flowered in a blend of scarlet, orange, yellow and pink. Semi-double. Fruity fragrance. Abundant bloom.

Poinsettia. Most brilliant RED. Rich, velvety, long lasting. Fragrant.

Snowbird. WHITE, creamy center. Double, high centered. Very fragrant.

Soeur Therese. GOLDEN YELLOW with carmine-tipped petals. Very large, semi-double. Slightly fragrant.

Condesa de Sastago

SPECIALY SELECTED PATENTED HYBRID TEA ROSES

Each year we carefully study the stock of Patented Hybrid Tea Roses available and select the choicest ones to assure you, as best we can, of obtaining real pleasure from your Roses.

These particular varieties are notable for their exceptionally fine characteristics—beautiful form, dependable hardiness, outstanding vigor, delightful fragrances or wonderful colors. Make any selection you may wish—all are excellent both in quality of bloom and in health and cleanliness of stock. You will love your Rosedale Rose Garden.

Apricot Queen (Plant Pat. No. 464). Apricot orange at base to salmon-rose-pink. Exclusive coloring. \$1.50 each, 3 for \$3.90

Charlotte Armstrong (Plant Pat. No. 455). Long, slender, cerise buds open to magnificent blooms; moderately fragrant; luxurious foliage. An outstanding favorite since 1941. \$2.00 each, 3 for \$5.25.

Crimson Glory (Plant Pat. No. 105). Velvety crimson with black and maroon shadings. Wonderful fragrance. \$1.75 each, 3 for \$4.65.

Debonair (Plant Pat. No. 677). Large, double blooms of rich, golden yellow. Very vigorous. \$1.75 each, 3 for \$4.65.

Diamond Jubilee (Plant Pat. No. 824). Warm, buff-yellow. Huge, long-lasting, fragrant blooms. Profuse. \$2.00 each, 3 for \$5.25.

SPECIALLY SELECTED PATENTED HYBRID TEA ROSES—Continued

Forty-Niner (Plant Pat. No. 792). The most brilliant of all bicolored Roses—inside of petals is vivid red with outside chrome yellow. Mildly fragrant. \$2.00 each, 3 for \$5.25.

Helen Traubel (Plant Pat. No. 1028). 1952 All-America Winner. Also Gold Medal of Rome Winner. Delightful colorings from sparkling pink, to luminous apricot to bronzy orange—varying with the weather. A truly magnificent Rose considered by many to be the finest rose introduced since Charlotte Armstrong. \$2.75 each, 3 for \$7.20.

Katherine T. Marshall (Plant Pat. No. 607). A warm coral-pink suffused with yellow. Always well liked. Rich, fruity fragrance. \$1.75 each, 3 for \$4.65.

Lowell Thomas (Plant Pat. No. 595). Clear, canary-yellow blooms on robust growth—a very fine yellow Rose. 1944 All-America Winner. \$2.00 each, 3 for \$5.25.

Mirandy (Plant Pat. No. 632). Huge, full blooms of dark glowing red—top All-America Winner, 1945; penetrating fragrance. \$1.75 each, 3 for \$4.65.

Mission Bells (Plant Pat. No. 923). Glowing shrimp-pink, high-centered flowers. Richly fragrant. 1950 All-America Winner. \$2.25 each, 3 for \$6.00.

Mme. Cochet-Cochet (Plant Pat. No. 129). Very large, semi-double blooms of coppery-pink. Honey-like fragrance. \$1.50 each, 3 for \$3.90.

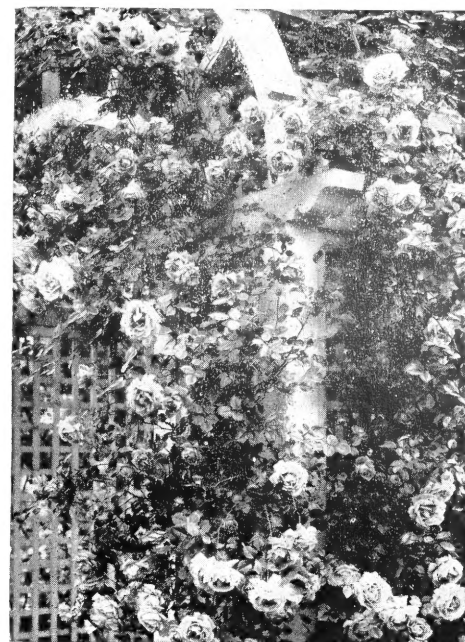

New Yorker (Plant Pat. No. 823). Fiery red blooms on long, stiff stems. Very fragrant. Exciting color—wonderful accent. \$2.00 each, 3 for \$5.25.

Nocturne (Plant Pat. No. 713). One of the finest reds—cardinal-red with crimson shadings. All-America Award Winner, 1948. Longest, streamlined buds. \$1.75 each, 3 for \$4.65.

Peace (Plant Pat. No. 591). Rich, warm yellow-ivory tones blend with delicate pink tints in these unusually large, long-lasting blooms. One of the finest Roses ever produced. Sole All-America Winner 1946. \$2.50 each, 3 for \$6.60.

Sutter's Gold (Plant Pat. No. 885). Golden yellow shaded with red. First American Rose to win top national (All-America Award) and International Awards (Bagatelle Gold Medal and Geneva Gold Medal). Exquisite. \$2.25 each, 3 for \$6.00.

Tallyho (Plant Pat. No. 828). Beautiful buds on long stems unfold slowly to full blooms of very unusual pink with outside of petals almost a crimson. Rich, spicy fragrance. 1949 All-America Winner. \$2.00 each, 3 for \$5.25.

Climbing Rose, Dr. J. H. Nicolas

Vigorous Climbing Roses with Abundant Blooms

A constant source of enjoyment on the home grounds. Plant on walls, fences or trellises. Plant 4 feet apart. These Rosedale Climbing Roses require little care.

Aloha (Plant Pat. No. 948). Deep coral-pink. Profuse, enormous flowers burst into bloom from top to bottom. New. Sensational. Ever-blooming. \$2.50 each, 3 for \$6.60.

Blaze. The overwhelmingly popular scarlet climber. Vivid, double flowers. Plant takes on everblooming qualities as it matures. \$1.50 each, 3 for \$3.90.

Doubloons (Plant Pat. No. 152). Huge, double, golden yellow flowers in clusters. Fragrant, profuse intermittent bloom. \$2.00 each, 3 for \$5.25.

Dr. J. H. Nicolas. Cupped, rose-pink blooms in clusters—flowers almost 6 in. in diameter! Very fragrant. \$2.00 each, 3 for \$5.25.

Mary Wallace. Delightful pink flowers with luminous sheen. Semi-double, very large blooms. Fragrant. A great favorite—long established. \$1.50 each, 3 for \$3.90.

New Dawn. Delicate pink blooms in great profusion all Summer into late Fall. One of the hardiest climbers. \$2.00 each, 3 for \$5.25.

Paul's Scarlet. Intensely red flowers borne in loose climbers. The most popular red Climber until the advent of Blaze. \$1.25 each, 3 for \$3.45.

Silver Moon. Big, saucer-shaped moon-white flowers with brilliant yellow centers. Handsome foliage. \$1.25 each, 3 for \$3.45.

Rosedale's TREE ROSES

There is nothing to equal the Tree Rose to add an accent point to your Rose Garden. Budded on sturdy stock, they bloom abundantly from June through frost giving both beauty and distinction.

Your Favorite HYBRID TEA ROSES in Tree-Form:

Caledonia.....White
Charlotte Armstrong (No. 455).....Cerise
Crimson Glory (No. 105).....Velvety crimson
Countess Vandal.....Coppery-pink
K. T. Marshall (No. 607). Coral-pink with vel.
Lowell Thomas (No. 595).....Canary-yellow
Peace (No. 591).....Yellow-ivory with pink
Poinsettia.....Brilliant red

Your favorite FLORIBUNDAS:

Fashion (No. 789).....Coral-pink with gold
Floradora.....Vermilion
Goldilocks (No. 672).....Golden yellow
Pinocchio (No. 484).....Pink with salmon
Red Pinocchio (No. 812).....Glowing carmine

ALL VARIETIES of TREE ROSES, \$5.00 each

MULTIFLORA ROSES

Useful on the very large estate where a thorny barrier is desired. When planted in a row become a high and wide hedge. We advise against using these on the small home grounds. 12 to 18 in. heavy rooted plants. 25 for \$2.75, 100 for \$9.95, 250 for \$22.50.

Floribunda Roses

FLORIBUNDA ROSES—The Shrub Type of Rose

This group of Roses is becoming increasingly important—not only for bed plantings but effective for border and hedge purposes. And what is especially interesting—we suggest you try it for we feel you will be pleased—these are now being incorporated in foundation plantings, an excellent way to add color all Summer long.

Floribunda Roses are noted for their full bushiness and their great profusion of continuous blooms. Truly everblooming.

Plant them 2 to 3 feet apart.

We list here a selected group of Floribundas giving you the colors to aid in making your choice:

Betty Prior (Plant Pat. No. 340). Pink, very fragrant. Best for mass planting. \$1.50 each, 3 for \$3.90.

Donald Prior (Plant Pat. No. 377). Bright red; free flowering. \$1.50 each, 3 for \$3.90.

Fashion (Plant Pat. No. 789). Exquisite coral-pink suffused with gold. Enchanting fragrance. \$2.00 each, 3 for \$5.25.

Floradora. Brilliant vermilion; prolific and continuous. \$1.50 each, 3 for \$3.90.

Goldilocks (Plant Pat. No. 672). Rich, clear, golden yellow of "Sweetheart Rose" type. \$1.50 each, 3 for \$3.90.

Marionette (Plant Pat. No. 569). White, fully double and profuse. \$1.50 each, 3 for \$3.90.

Ming Toy (Plant Pat. No. 900). Deep rose-pink. Very double and fragrant. \$1.50 each, 3 for \$3.90.

Pink Bountiful (Plant Pat. No. 601). Soft, glowing pink in unusual profusion—hence the name. \$1.50 each, 3 for \$3.90.

Pinkie (Plant Pat. No. 712). Dainty, fragrant pink flowers. Dwarf, bushy. \$1.75 each, 3 for \$4.65.

Pinocchio (Plant Pat. No. 484). Tiny, salmon-pink blooms. Dwarf, bushy. \$1.50 each, 3 for \$3.90.

Red Pinocchio (Plant Pat. No. 812). Glowing velvety carmine. Exceptionally profuse. \$1.50 each, 3 for \$3.90.

Summer Snow (Plant Pat. No. 416). Beautiful, large white clusters in countless numbers. \$1.50 each, 3 for \$3.90.

World's Fair (Plant Pat. No. 362). Dark, velvety maroon blooms virtually hide this bushy plant. \$1.50 each, 3 for \$3.90.

EVERGREENS (Conifers)

Keteleer's Juniper
(*Juniperus Keteleeri*)

***Juniperus chinensis Keteleeri* (KETELEER JUNIPER).** This comparatively new variety is never affected by aphid or blight. It grows in pyramidal form and is of very pleasing light green color all year round. M

3 to 3½ ft. hgt.	\$6.00	4 to 5 ft. hgt.	\$10.00
3½ to 4 ft. hgt.	7.50	5 to 6 ft. hgt.	15.00

***J. c. Pfitzeriana* (PFITZER'S SPREADING JUNIPER).** A handsome, spreading form with gray-green, plume-like foliage. Extremely useful as a filler in foundation or border plantings. Hardy and indifferent to drought. M

18 to 24 in. spr.	\$4.75	4 to 5 ft. spr.	\$20.00
2 to 2½ ft. spr.	6.50	5 to 6 ft. spr.	27.50
6 to 7 ft. spr.			\$35.00

***J. c. Pfitzeriana compacta glauca*.** A dwarf, compact type with blue-gray foliage. Excellent for banks, rock gardens or where low, spready plants are required. S

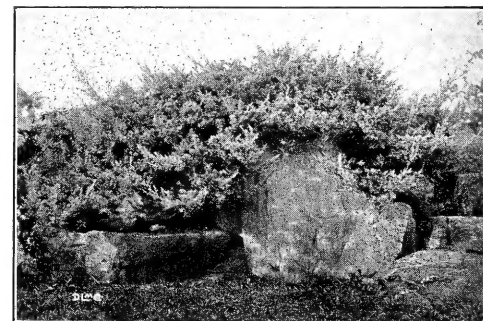

18 to 24 in. spr. \$6.00

***J. c. Pfitzeriana Hetzi*.** More rapid-growing than the true Pfitzer. Intense blue-gray foliage. Good for both formal and informal effects. M

18 to 25 in. spr. \$7.00

***J. c. pyramidalis* (GREEK JUNIPER).** Slow-growing and of upright, columnar habit. The gray-green foliage is a useful color accent. S

12 to 15 in. hgt. \$3.00 | 15 to 18 in. hgt. \$4.50

Bar Harbor Juniper
(*Juniperus chinensis Bar Harbor*)

***Juniperus chinensis Sargentii*.** A low, trailing form, with deep green foliage. Best Juniper for rock gardens. S

15 to 18 in. spr. \$5.00

***J. horizontalis plumosa*.** Dwarf and low-spreading with plummy foliage from center. Green in Spring, gray-green in Summer, heather tones in Winter. S

15 to 18 in. spr. \$4.25 | 18 to 24 in. spr. \$5.50

PICEA—Spruce

Spruces will grow in almost any kind of moderately moist soil and are easily transplanted. Recommended for lawn specimens, screen or border plantings. Very popular as landscape material.

***Picea Abies* (NORWAY SPRUCE).** Rapid-growing, Christmas-tree type attaining great size. Useful for windbreak or as single specimen. F

2 to 3 ft. hgt.	\$5.50	4 to 5 ft. hgt.	\$11.00
3 to 4 ft. hgt.	7.50	5 to 6 ft. hgt.	12.50
8 to 9 ft. hgt.			35.00
9 to 10 ft. hgt.			40.00
10 to 12 ft. hgt.			50.00

***P. Omorika* (SERBIAN SPRUCE).** Dense pyramid, attaining great size slowly. Needles are dark green on top, silvery underneath with branches sweeping out in arcs. Hardy and reliable. M

7 to 9 ft. hgt. \$45.00

***P. pungens glauca* (KOSTER BLUE SPRUCE).** Bluest of all. Regular and symmetrical with somewhat pendulous branches. For best effect, use as an accent or specimen.

2 to 2½ ft. hgt. \$15.00

Mugho Pine (*Pinus Mughus*)

Pyramidal Arborvitae

EVERGREENS (Conifers)—Continued

PINUS—Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

Pinus Cembra (SWISS STONE PINE). Symmetrical, slow-growing and compact. Dark green foliage. Hardy. Very handsome lawn specimen. S

3 to 4 ft. hgt. \$16.00 | 4 to 5 ft. hgt. \$22.50

P. mugho mughus (DWARF MUGHO PINE). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height. S

12 to 15 in. spr. \$4.50

P. nigra (AUSTRIAN or BLACK PINE). Excellent for the shore and high bleak hills or even in smoky, dusty cities. Very hardy. F

4 to 5 ft. hgt., very heavy. \$15.00 | 6 to 7 ft. hgt. \$27.50

P. parviflora glauca (ORIENTAL WHITE PINE). A hardy tree of interesting, irregular growth habit. Very picturesque with bluish-green needles in tufts at the ends of branches. M

7 to 8 ft. hgt. \$25.00

P. Strobus (WHITE PINE). Beautiful in every stage of growth. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F

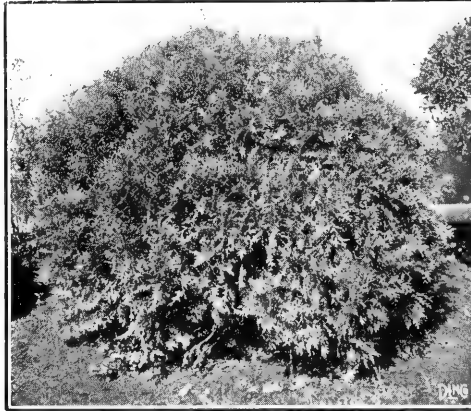

2 to 3 ft. hgt. \$3.75 | 7 to 8 ft. hgt. \$25.00

3 to 4 ft. hgt. 5.00 | 8 to 9 ft. hgt. 35.00

4 to 5 ft. hgt. 8.50 | 9 to 10 ft. hgt. 40.00

5 to 6 ft. hgt. 14.00 | 10 to 12 ft. hgt. 50.00

6 to 7 ft. hgt. 18.00 | 12 to 14 ft. hgt. 60.00

Booth Globe Arborvitae
(Thuja occidentalis Boothii)

PSEUDOTSUGA

Douglas Fir

Pseudotsuga taxifolia (DOUGLAS FIR).

This handsome tree with its gray-green foliage is very hardy and extremely ornamental at all stages of growth. Thrives in Canada and will endure both drought and cold. Some specimens are rich, deep green; others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and we will be glad to have you make your selection.

18 to 24 in. hgt. \$3.75

2 to 3 ft. hgt. 5.50

3 to 4 ft. hgt. 7.50

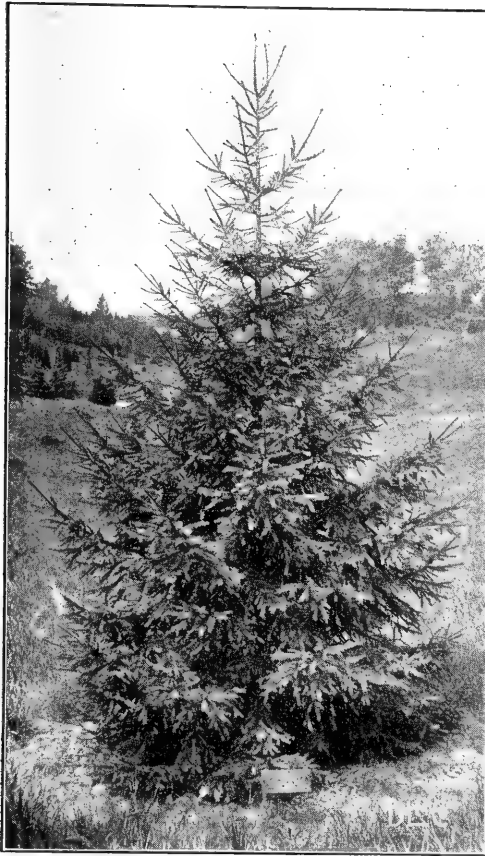

4 to 5 ft. hgt. 9.00

5 to 6 ft. hgt. 12.00

6 to 7 ft. hgt. 18.00

7 to 8 ft. hgt. 20.00

8 to 9 ft. hgt. 27.50

Norway Spruce (Picea Abies)

THUJA—Arborvitae

These ornamental Evergreen trees are favorites for formal gardens because of their regular, symmetrical habit. Especially adapted for hedges and windbreaks. Thrive best in a moist, loamy soil.

Thuja occidentalis Boothii (BOOTH GLOBE ARBORVITAE). Dense, globe-shaped variety which maintains its shape without shearing; foliage seagreen in Summer; bronze in Winter. Perfectly hardy, growing to about 3 ft. high. S

15 to 18 in. spr. \$3.00 | 18 to 24 in. spr. \$4.00

2½ to 3 ft. spr. \$7.50

T. o. nigra (DARK AMERICAN ARBORVITAE). An upright variety of deep, rich green. Especially useful in hedges and screenings. M

2 to 3 ft. hgt. \$4.50 | 5 to 6 ft. hgt. \$10.00

3 to 4 ft. hgt. 6.00 | 6 to 7 ft. hgt. 14.00

4 to 5 ft. hgt. 7.50 | 7 to 8 ft. hgt. 17.50

8 to 9 ft. hgt. \$22.50

T. o. pyramidalis (PYRAMIDAL ARBORVITAE). The deep green color and upright pyramidal form renders it conspicuous in contrast with other evergreens. Very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M

3 to 4 ft. hgt. \$6.50 | 6 to 7 ft. hgt. \$12.00

4 to 5 ft. hgt. 8.00 | 7 to 8 ft. hgt. 14.00

5 to 6 ft. hgt. 10.00 | 8 to 9 ft. hgt. 16.00

PLANTING SUGGESTIONS

As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

Compact Douglas Fir Growing at Rosedale (Pseudotsuga)

Pfitzer Juniper

Tsuga canadensis (CANADIAN HEMLOCK). A handsome, ornamental tree, growing 70 to 100 ft. high but with shearing may be kept within any desired height. Wonderful for thick hedge. Its graceful, feathery effects are admired by everyone. F

18 to 24 in. hgt.	\$ 4.50
2 to 2½ ft. hgt.	5.25
2½ to 3 ft. hgt.	6.50
3 to 4 ft. hgt.	8.50
4 to 5 ft. hgt.	11.00
5 to 6 ft. hgt.	15.00
6 to 7 ft. hgt.	20.00
7 to 8 ft. hgt.	25.00
8 to 9 ft. hgt.	40.00
9 to 10 ft. hgt.	65.00
10 to 12 ft. hgt.	100.00
12 to 14 ft. hgt.	125.00

T. caroliniana (SOUTHERN HEMLOCK). Native in the mountains of the Southern states; perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from the Canadian Hemlock. M

2 to 3 ft. hgt.	\$7.50	4 to 5 ft. hgt.	\$14.00
3 to 4 ft. hgt.	10.00	5 to 6 ft. hgt.	18.00
6 to 7 ft. hgt.	\$22.50		

T. Sieboldii. A dwarf Hemlock of pyramidal habit. Not generally seen in this area yet entirely hardy. Very popular for home plantings. S

2 to 2½ ft. hgt.	\$7.50	3½ to 4 ft. hgt.	\$15.00
2½ to 3 ft. hgt.	10.00	4 to 4½ ft. hgt.	17.50

Canadian Hemlock (Tsuga canadensis)

EVERGREENS (Conifers) -Continued

Thuja occidentalis robusta (WARE or SIBERIAN ARBORVITAE). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit. M

5 to 6 ft. hgt.\$12.00

T. o. spiralis. A compact tree with short, close-set branchlets on upright branches. Beautiful, dark foliage. M

5 to 6 ft. hgt.\$10.00

T. orientalis Sieboldii (GOLDEN BIOTA). A dwarf, rounded plant with yellow to bronze foliage. Always retains its neat, compact form without training. S

8 to 10 in. hgt.\$1.75 | 15 to 18 in. hgt.\$3.75

18 to 24 in. hgt.\$5.00

TSUGA—Hemlock

Hemlocks can be used in many different ways and in each case they are eminently suitable and beautiful. As lawn specimens they attain great size and grandeur; by shearing, they may be used in foundation plantings and kept from overgrowing for years and years. For border or screen, they form a most naturalistic background.

Hemlocks are practically immune to insects and disease.

White Pine (Pinus Strobus)

TAXUS • Yew

These rich, dark green Evergreens continue to be the favorites among the evergreens. Their hardiness, their freedom from ills and their slow, rugged development make them deserving of their great popularity.

Yews thrive best in a moderately sandy loam but will endure adverse soil conditions and shade.

The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping—to mention just a few—make Yews suitable for almost any landscape requirements. They make the finest of all hedges. They stand heavy pruning well.

Our selection of Yews is very extensive and of the finest quality. We list below some of the varieties and sizes which we have at the nurseries.

Taxus baccata repandens (SPREADING ENGLISH YEWE). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. Very desirable for low plantings. M

12 to 15 in. spr.	\$4.50	18 to 24 in. spr.	\$6.00
2 to 2½ ft. spr.	\$7.50		

T. cuspidata (SPREADING JAPANESE YEWE). This dense, spreading form with its deep green foliage is very hardy. Especially useful near the house. M

15 to 18 in. spr.	\$4.50	3½ to 4 ft. spr.	\$20.00
18 to 24 in. spr.	6.50	4 to 4½ ft. spr.	25.00
2 to 2½ ft. spr.	9.00	4½ to 5 ft. spr.	30.00
2½ to 3 ft. spr.	12.00	5 to 5½ ft. spr.	35.00
3 to 3½ ft. spr.	15.00	5½ to 6 ft. spr.	45.00

See Premium Fruit Tree Offer on page 30

Dwarf Japanese Yew (*Taxus cuspidata nana*)

EVERGREENS (Conifers) — Continued

Taxus cuspidata Capitata (UPRIGHT JAPANESE YEW). Upright tree form of cuspidata—a very desirable variety for foundation plantings. Excellent for hedge purposes. M

15 to 18 in. hgt.	\$4.75
18 to 21 in. hgt.	6.50
2 to 2½ ft. hgt.	\$8.00
2½ to 3 ft. hgt.	12.00
3 to 3½ ft. hgt.	16.00
3½ to 4 ft. hgt.	18.00
4 to 4½ ft. hgt.	22.50
4½ to 5 ft. hgt.	30.00
5 to 5½ ft. hgt.	40.00

A few large specimens priced on selection

T. c. columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M

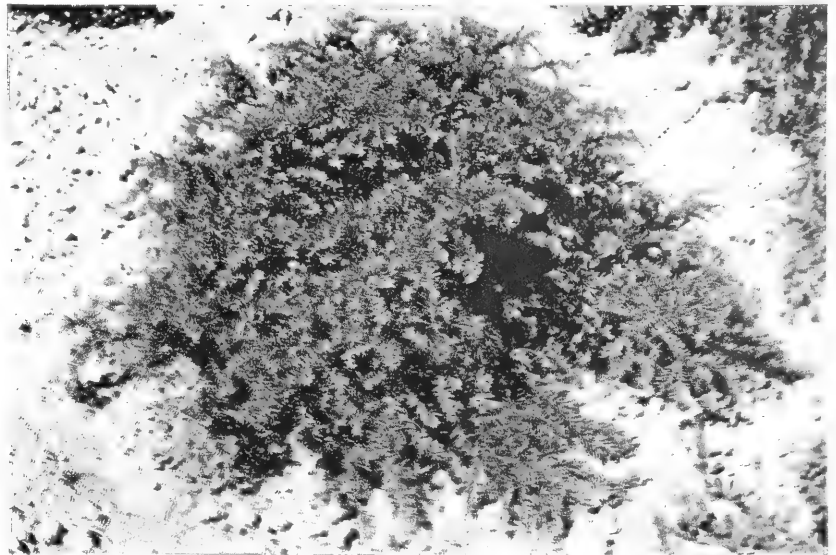

4 to 4½ ft. hgt.	\$20.00
4½ to 5 ft. hgt.	25.00

T. c. Moon's Columnar. A generally upright variety but usually having a spread very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth. Highly recommended. S

2½ to 3 ft. hgt.	\$15.00
3 to 3½ ft. hgt.	17.50
3½ to 4 ft. hgt.	22.50

T. c. nana (DWARF JAPANESE YEW). Dwarf, compact and low-spreading in habit. Very hardy. Because of its slow-growing nature, it is especially useful in foundation plantings for it will not outgrow its location.

12 to 15 in. spr.	\$3.75
15 to 18 in. spr.	5.00
18 to 24 in. spr.	8.00
2 to 2½ ft. spr.	12.00
2½ to 3 ft. spr.	20.00

Spreading English Yew (*Taxus baccata repandens*)

Taxus densiformis. An unusually beautiful form of *Taxus cuspidata*—similar in shape with a more luxuriant and dense growth. Same prices apply as to *Taxus cuspidata*.

T. media (Brownii) (BROWN'S YEW). This rounded, full-centered type of compact Yew is our very best type for hedges, where medium height and considerable fullness is desired. Our stock of this variety is especially fine. M

15 to 18 in. spr.	\$4.75
18 to 24 in. spr.	6.50
2 to 2½ ft. spr.	8.00
2½ to 3 ft. spr.	12.00

T. m. Hatfieldii (HATFIELD YEW). Finest upright Yew, making the finest of hedges of all the Yews, we believe. Especially useful for it holds its form almost without trimming. M

15 to 18 in. hgt.	\$4.50
18 to 24 in. hgt.	5.50
2 to 2½ ft. hgt.	7.50
2½ to 3 ft. hgt.	10.00
3 to 3½ ft. hgt.	15.00
3½ to 4 ft. hgt.	17.50
Heavy specimens, 5 ft. hgt.	45.00

Hatfield Yew (*Taxus Hatfieldii*)

Taxus media Hicksii (HICKS YEW). Exceptionally dark green needles and red berries which it grows in profusion, makes this one of the most interesting Yews. Upright, columnar in habit. Also useful as hedge material. M

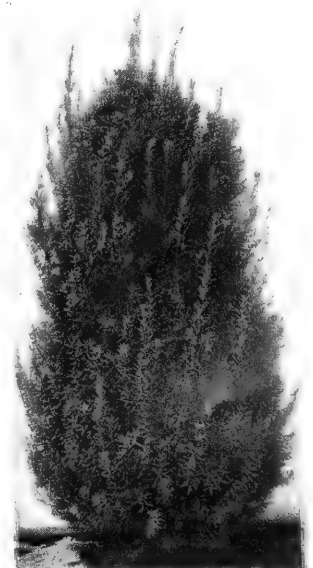

15 to 18 in. hgt.	\$3.75
18 to 24 in. hgt.	4.75
2 to 2½ ft. hgt.	5.75
2½ to 3 ft. hgt.	10.00
3 to 3½ ft. hgt.	12.50
3½ to 4 ft. hgt.	15.00
4 to 4½ ft. hgt.	20.00
4½ to 5 ft. hgt.	25.00
5 to 5½ ft. hgt.	35.00
Heavy specimens, 4½ to 5 ft. hgt.	45.00

T. m. Vermeulen. A dense-growing, upright, rather rounded, type of Yew. Slightly irregular in character it makes an interesting addition to the landscape planting. Its extremely slow growth makes it even more valuable. S

3 to 3½ ft. hgt.	\$22.50
------------------	---------

Spreading Japanese Yew (*Taxus cuspidata*)

Hick's Yew (*Taxus Hicksii*)

Norway Maple (*Acer platanoides*)

SHADE TREES

In order to provide you with healthy, sturdy Shade Trees, it is necessary for the trees to grow in soil suitable to their needs, to be transplanted frequently to improve root systems and to be pruned so as to encourage shapely growth. Here at Rosedale we do these things systematically so that you will receive fine, sturdy stock which will become re-established in your grounds more easily. In addition, we are particularly careful to plant our trees far enough apart in wide-spaced rows to permit lateral as well as upright growth.

We grow only those varieties which will thrive in this climate.

**ALL SHADE TREES ARE BARE ROOT EXCEPT AS MARKED
BALLED AND BURLAPPED (B&B)**

Planting Instructions: Bare Root Material — Please see page 26.
B&B Material — Please see page 7.

ACER—Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

Acer palmatum atropurpureum (REDLEAVED JAPANESE MAPLE). A comparatively dwarf Maple, slow in growth, and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well-shaped. All B&B. S

18 to 24 in.	\$6.00	3 to 3½ ft.	\$18.00
2 to 2½ ft.	10.00	3½ to 4 ft.	22.50
2½ to 3 ft.	15.00	4 to 5 ft.	25.00

A. p. dissectum (CUTLEAF JAPANESE MAPLE). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed. All B&B. S
2½ to 3 ft. ...\$22.50 | 3 to 3½ ft. ...\$27.50

A. platanoides (NORWAY MAPLE). Foremost of the Maples because of its regular outline, widespreading branches and deep, green foliage which is retained even after the first heavy frosts. Becomes a good shade tree quickly. F
1¾ to 2 in. cal.\$16.00
2 to 2½ in. cal. 22.50
2½ to 3 in. cal. 27.50
3 to 3½ in. cal., B&B. 50.00
3½ to 4 in. cal., B&B. 65.00
4 to 4½ in. cal., B&B. 85.00
4½ to 5 in. cal., B&B.110.00
5 to 6 in. cal., B&B.175.00

Larger sizes priced on selection

A. p. Schwedleri nigra (NORWAY MAPLE, CRIMSON KING, PLANT PAT. NO. 735). Crimson King is a beautiful form of Schwedler's Maple. Brilliant crimson all through the Summer months. F
6 to 8 ft.\$10.00

A. saccharum (SUGAR MAPLE). A beautiful tree of upright form. Attains a greater height than the Norway Maple, with brilliant red and yellow coloring in Fall. All B&B. F
1¾ to 2 in. cal., B&B.\$16.00 | 2½ to 3 in. cal., B&B.\$35.00
2 to 2½ in. cal., B&B. 27.50 | 3 to 3½ in. cal., B&B. 50.00

BETULA—Birch

Betula alba (EUROPEAN WHITE BIRCH). Very graceful habit and creamy white bark even in the young trees. All B&B. M
2½ to 3 in. cal.\$35.00 | 3 to 3½ in. cal.\$50.00
3½ to 4 in. cal.\$65.00

B. populifolia (SILVER or GRAY BIRCH). Generally in clumps of two or more white trunks, rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M
8 to 10 ft.\$15.00 | 12 to 14 ft.\$50.00
10 to 12 ft. 25.00 | 14 to 16 ft.\$50.00 to 75.00

Larger specimens priced on selection

GINKGO

Ginkgo biloba (MAIDENHAIR TREE). One of the oldest things in the world is the Ginkgo tree. With its single straight trunk and broad, conical head it is extremely popular. The Ginkgo tolerates unfavorable city conditions and a wide range of soil conditions—withstands wind and is virtually free from pests. Transplants easily. M

2 to 2½ in. cal., B&B.\$20.00 | 2½ to 3 in. cal., B&B.\$30.00

Silver Birch (*Betula populifolia*)

Pin Oak (*Quercus palustris*)

SHADE TREES—Continued

GLEDITSIA—Honeylocust

Gleditsia triacanthos inermis (THORNLESS HONEYLOCUST). A truly, lovely tree spreading a canopy of lacelike foliage. Free from insect pests, hardy and long lived. Not entirely free from thorns but many less than older form. Something different in a shade tree with its light, airy grace. F

10 to 12 ft., 1½ to 2 in. cal.	\$12.00
2 to 2½ in. cal.	20.00
2½ to 3 in. cal.	27.50
3 to 3½ in. cal., B&B.	50.00

LIQUIDAMBAR
Sweet Gum

Liquidambar styraciflua (SWEET GUM). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All B&B. S

2 to 2½ in. cal.	\$27.50
2½ to 3 in. cal.	35.00
3 to 3½ in. cal.	50.00

PLATANUS—Plane

Platanus occidentalis (AMERICAN PLANE, BUTTONBALL or SYCAMORE). This grand, native American tree attains great size and spread with open-branching, and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it for a rapid-growing shade tree in well-drained soil. F

1½ to 2 in. cal.	\$12.00
2 to 2½ in. cal.	22.50
2½ to 3 in. cal.	27.50
3 to 3½ in. cal., B&B.	50.00
3½ to 4 in. cal., B&B.	65.00

POPULUS—Poplar

Populus italica nigra (LOMBARDY POPLAR). The slender, upright form of growth makes these trees especially desirable for road plantings, property borders or along a stream. Quick-growing, they make a good screen when planted close together. The soft patter of the leaves as the Summer breeze ripples through them makes the Lombardy Poplar especially delightful. F

6 to 8 ft.	\$3.50
------------	--------

The New Morain Locust (Plant Pat. No. 836)

A beautiful, new form of Locust—both thornless and seedless. This vigorous tree grows rapidly, creating light, airy shade quickly.

Outstandingly hardy but prefers sunny, exposed situations.

A most desirable addition to our Shade Tree varieties.

5 to 6 ft.	\$6.00	8 to 10 ft.	\$15.00
6 to 8 ft.	10.00	10 to 12 ft.	20.00

QUERCUS—Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their yearly growth equals that of almost any other species.

Quercus palustris (PIN OAK). A superb tree, distinct in its character. The Pin Oak's graceful drooping branches support a mass of deeply lobed, sharply pointed leaves. Deep red in Fall. M

1 to 1½ in. cal.	\$10.00	2 to 2½ in. cal., B&B.	\$27.50
1½ to 2 in. cal., B&B.	20.00	2½ to 3 in. cal., B&B.	45.00
		3 to 3½ in. cal., B&B.	\$60.00

SALIX—Willow

Salix babylonica (WEeping WILLOW). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water. Makes a beautiful screening where needed in low, moist locations. F

5 to 6 ft.	\$3.50	10 to 12 ft., B&B.	\$10.00
8 to 10 ft., B&B.	7.50	12 to 14 ft., B&B.	15.00

S. b. aurea (GOLDEN TWIG WEeping WILLOW). F

8 to 10 ft., B&B.	\$7.50	10 to 12 ft., B&B.	\$10.00
-------------------	--------	--------------------	---------

S. sepulcralis (SALAMON WEeping WILLOW). Similar to Babylonica, but less pendulous—branches are ascending with branchlets pendulous. Sturdier than Babylonica. F

2½ to 3½ in. cal., B&B.	\$25.00	3½ to 4 in. cal., B&B.	\$35.00
-------------------------	---------	------------------------	---------

TILIA—Linden

Tilia tomentosum (SILVER-LEAVED LINDEN). Our best form of Linden, having clean, silvery foliage, not readily affected by aphids or beetles. Very desirable tree. M

2½ to 3 in. cal.	\$35.00	3½ to 4 in. cal., B&B.	\$65.00
3 to 3½ in. cal., B&B.	50.00	4½ to 5 in. cal., B&B.	110.00

Weeping Willow (Salix Babylonica)

FLOWERING SHRUBS

This group of plants is vitally important to the well-designed landscape, lending not only colorful blooms during their flowering period but a year-round succession of captivating pictures—and uses. The young greens of first growth in the Spring; the thick, green foliage in the Summer; innumerable brilliant leaf-colorings in the Fall; followed by the fascinating outlines and patterns or the branches against the snow.

In beds or borders, as backgrounds or hedges, in groups or as specimens, Flowering Shrubs point to one of the most inexpensive ways of obtaining better landscaping.

If allowed to go uncared for, some shrubs may get coarse, overgrown, but a little simple pruning avoids this easily.

An unusually large number of varieties of Flowering Shrubs awaits your selection here at the nurseries. We list below some of them.

All Flowering Shrubs are Bare Root (BR) Except Where Indicated B&B

Planting Instructions: Bare Root page 26; B&B page 7.

Acanthopanax Siebolianum—*Aralia Pentaphylla*

An attractive, prickly shrub of dense growth. The lovely, bright green leaves of tropical appearance make it desirable for a hedge bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. M 2 to 3 ft.\$1.25

Amelanchier canadensis

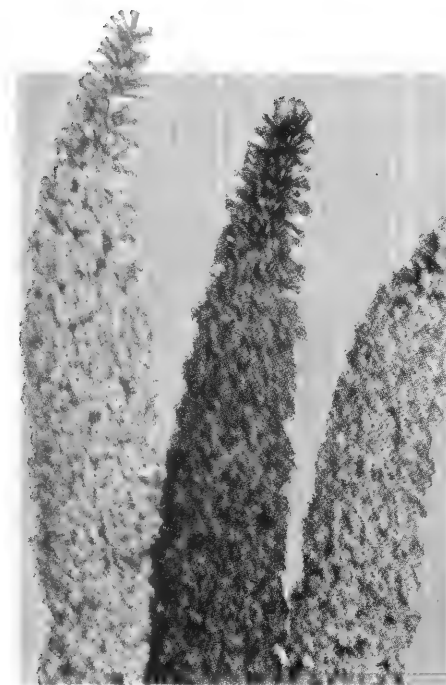

Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F 2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.50

Aronia arbutifolia—*Brilliant Chokeberry*

Handsome red Autumn foliage and brilliant red berries on shrub of modest, upright growth. F 2 to 3 ft.\$1.50

AZALEAS—Deciduous Types

Both deciduous and evergreen types of Azaleas will be found under **Broadleaved Evergreens.**

Butterflybush (*Buddleja*)

Berberis t. atropurpurea **Redleaf Barberry**

Very similar to *B. Thunbergii* except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily.

15 to 18 in. . .75c. ea., \$70.00 per 100
18 to 24 in. . .90c. ea., \$85.00 per 100
2 to 3 ft.\$1.50
3 to 4 ft.3.50

Buddleja **Butterflybush**

Tiny, delicate florets cover the graceful spires of the Butterflybush, so irresistible to butterflies. All are excellent as cut flowers blooming in August and September. A delightful addition to the Shrub planting.

Blue White Pink Red
2 yr. 90c. each | 6 in. potted \$1.25 each

SPECIAL COLLECTION—BUDDLEJA
One each of these 4 fine varieties, \$3.50

Deutzia gracilis

Callicarpa purpurea **Beautyberry**

A graceful, spreading shrub bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender-blue berries in dense clusters along the branches. F

18 to 24 in.\$1.25 | 2 to 3 ft.\$2.50

Calycanthus floridus **Sweet Shrub**

This lovely, old-fashioned shrub with its chocolate-colored blossoms is a must for every garden. It derives its name from the spicy fragrance of the leaves and bark. A splendid bush well deserving of its great popularity. M

2 to 3 ft.\$1.25 | 3 to 4 ft.\$2.00
3 to 4 ft. heavy.\$3.50

Forsythia, Spring Glory

Berberis

mentorensis

Mentor Barberry

(Plant Pat. No. 99)

Of strong, rugged upright habit, able to withstand heat and drought. Darkest green foliage clings late in Fall. More beautiful than Japanese Barberry.

12 to 14 in. 75c. ea., \$6.00 per 12
15 to 18 in. 90c. ea., 7.25 per 12
2½ to 3 ft.2.50

Berberis Thunbergii

Japanese Barberry

Commonly used in hedges. Red berries in the Fall.

15 to 18 in. 50c. ea., \$45.00 per 100
18 to 24 in. 80c. ea., \$55.00 per 100

Enkianthus

FLOWERING SHRUBS—continued

Caryopteris—Blue Mist

Blue, mist-like blooms from August to frost. M
3 yr. plants.....\$1.50 | Heavy, pot-grown.....\$1.75

Chaenomeles—Flowering Quince

C. lagenaria. Early blooming, deep crimson flowers; shiny green foliage. M
18 to 24 in.....\$1.00 | 2 to 3 ft.....\$1.75
3 ft., heavy.....\$2.50

Chaenomeles Hybrids bear larger flowers in profuse clusters before the shining green leaves appear.

Afterglow. Double snow-white gradually becoming soft rose. A distinct novelty.
1½ to 2 ft. \$2.75 each.

Blood Red. Large, deep red. Early variety. 1½ to 2 ft. \$2.25 each.

Cynthia. Soft peach-pink. 2 to 3 ft. \$2.75 each.

Juliet. Coral-pink. 1½ to 2 ft. \$2.25 each.

Knaphill Scarlet. Vermilion-red flowers on a very low mounded bush. 2½ to 3 ft. \$3.50 each.

Margaret Adams. Soft coral-pink. 1½ to 2 ft. \$2.25 each.

Chionanthus virginica
White Fringetree

One of the most striking native small trees or shrubs. Handsome glossy leaves and masses of loose panicles of feathery snow-white flowers in Midsummer. F

2 to 3 ft.....\$2.00
3 to 4 ft.....3.50

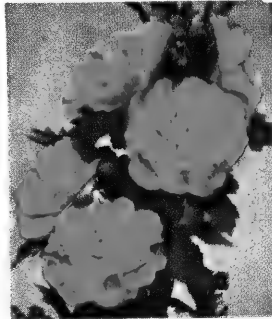

Hydrangea, Paniculata Grandiflora

Burning Bush (Euonymus alatus compactus)

Hibiscus

Hibiscus

Clethra alnifolia—Sweet Pepperbush

Spikes of fragrant white flowers in late Summer on upright, slow-growing shrub. Fine for naturalizing. S

18 to 24 in... \$1.25 | 2 to 3 ft....\$1.75

Cornus mas

Cornelian Cherry

Generally first shrub to show color in Spring when twiggy branches are covered in a yellow mist. Cherry-like fruit.

2 to 3 ft.....\$2.50 | 3 to 4 ft....\$3.50

Cotinus coggygia

Bronze Smoke Tree

Bronze-leaved and bronze-plumed. Unusual and especially handsome. F

2 to 3 ft.....\$2.25 | 3 to 4 ft....\$2.75

Deutzia gracilis

Slender Deutzia

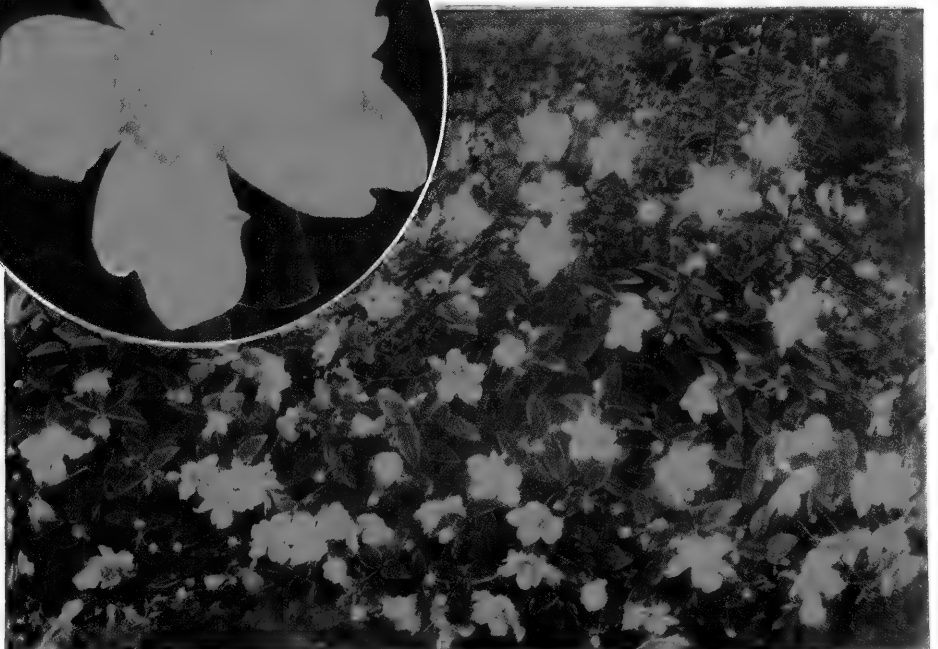

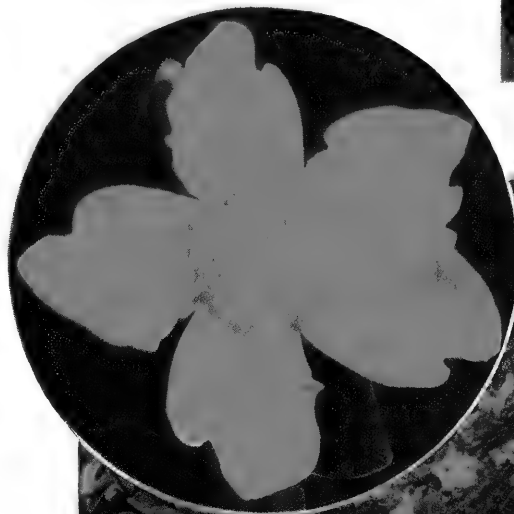

A dwarf variety with small, white flowers that completely cover it in May. S

12 to 15 in.....\$1.00 | 15 to 18 in...\$1.50
18 to 24 in.....\$2.00

Enkianthus campanulatus

A handsome, large shrub which retains its shape without pruning. Bunches of tiny, red-veined, white, bell-like flowers are borne on whorled branches. Foliage turns a brilliant red in the Fall. Very worthwhile.

18 to 24 in.....\$2.75

Hypericum, Hidcote Gold

FLOWERING SHRUBS—Continued

Euonymus

Euonymus alatus (CORKBARK EUONYMUS). A particularly striking shrub with corky "winged" branches and scarlet foliage and berries in the Fall. F

18 to 24 in.....	\$1.50	3 to 4 ft.....	\$3.00
2 to 3 ft.....	2.25	4 to 5 ft.....	5.00

E. alatus compactus (BURNING BUSH). Similar to alatus in that it seems to be on fire because of its brilliant Fall coloring; however, much neater and slower in growth. Wonderful for specimen planting or may be used in the foundation or border for accent.

2 to 3 ft.....	\$2.75	3 to 4 ft.....	\$5.00
4 to 5 ft.....			\$7.50

Forsythia

Forsythia intermedia, Spring Glory (PRIMROSE FORSYTHIA). Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

2 to 3 ft.....	\$1.25	4 to 5 ft.....	\$4.00
3 to 4 ft.....	2.50	5 to 6 ft.....	\$5.00 to 7.50

F. intermedia spectabilis (SHOWY BORDER FORSYTHIA). A deeper, yellow form of semi-drooping character with the large flowers in great profusion. Long a favorite and very showy in group plantings.

2 to 3 ft.....	\$0.95
3 to 4 ft.....	1.25
4 to 5 ft., heavy.....	\$2.50 to 3.50
4 to 5 ft., extra heavy.....	5.00 to 7.50

Halesia tetraptera
Silver Bell

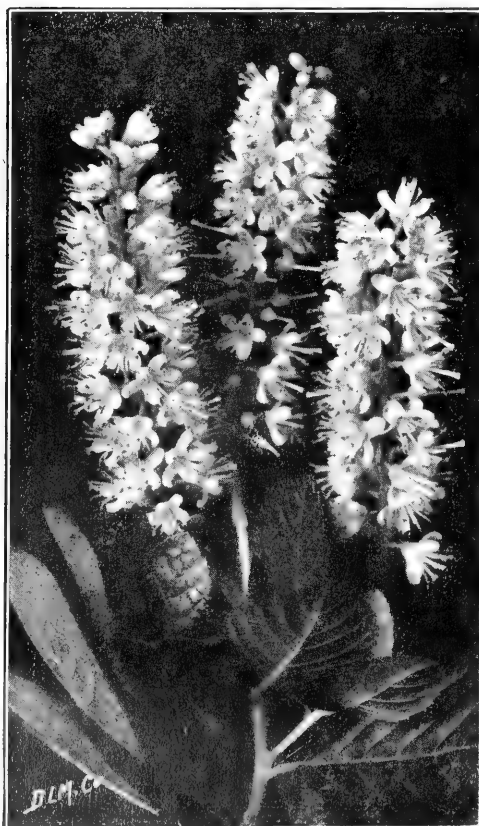

Dainty flowers in May resemble small, silver bells. Heavy, upright shrub.

3 to 4 ft.....	\$2.75
----------------	--------

Hamamelis virginiana
Witch Hazel

Irregular spreading shrub with large, oval leaves. Small yellow flowers close to stem in November. For deep shade or full sun. M

3 to 4 ft.....	\$2.00	4 to 5 ft.....	\$3.00
----------------	--------	----------------	--------

Sweet Pepperbush (Clethra alnifolia)

Flowering Quince (Chaenomeles)

H. s. Comte de Haimont. Double pink, mottled white. 2 to 3 ft.....	\$1.25
H. s. Jeanne d'Arc. Double white. 2 to 3 ft.....	\$1.25
3 to 4 ft.....	\$2.00
H. s. Lady Stanley. Double, bluish-white, splashed with deep pink. 3 to 4 ft.....	\$2.00
H. s. Lucy. Double lavender. 2 to 3 ft.....	\$1.25
H. s. totus alba. Finest single white of all. 2 to 3 ft.....	\$1.25
3 to 4 ft.....	\$2.00

Hydrangea

Hydrangea arborescens (SUMMER HYDRANGEA). Large, pure white blooms in July and August. F

2 to 3 ft.....	\$1.50
----------------	--------

H. macrophylla (GREENHOUSE HYDRANGEA). Bushy growth with pink or blue flowers in profusion, according to acidity of soil. F

3 year.....	\$2.00	4 year.....	\$3.50
-------------	--------	-------------	--------

H. paniculata grandiflora (PEEGEE HYDRANGEA). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F

2 to 3 ft.....	\$1.25	3 to 4 ft.....	\$1.75
----------------	--------	----------------	--------

H. p. grandiflora (PEEGEE TREE FORM). The tree form can stand alone or in groups and need not be supported. Immense blooms weigh the branches down, creating a weeping tree effect. An old-fashioned favorite. F

3 to 4 ft. tree.....	\$2.75	4 to 5 ft. tree, heavy.....	\$5.00
----------------------	--------	-----------------------------	--------

Hypericum

Hypericum aureum (GOLDEN ST. JOHNSWORT). Golden-yellow flowers in July and August measure 1 to 2 in. in diameter. Very interesting with its blue-green leaves, angular twigs, and peeling bark. Dense, upright shrub of about 3 ft.; very hardy. S

18 to 24 in.....	\$1.25	2 to 3 ft.....	\$2.50
------------------	--------	----------------	--------

H. Hidcote. Somewhat mounded in form of growth with blue-green foliage. Delightful golden-yellow, Daffodil-like flowers in profusion in Midsummer, the period when shrub blooms are generally few. This new, exciting shrub acclaimed by *Herald Tribune* jury as outstanding new shrub for 1952. S

2 yr., heavy plants.....	\$1.75
--------------------------	--------

Sweet Shrub (Calycanthus Floridus)

Hibiscus syriacus
Rose of Sharon

A rather erect and tall-growing shrub of neat form. Flowers beginning in August and lasting usually until heavy frosts. Excellent stock. M

Hibiscus syriacus, Boule de Feu. Double red 2 to 3 ft..... \$1.25 | 3 to 4 ft..... \$2.00

H. s. coelestis. Single, blue. Outstanding. 2 to 3 ft..... \$1.25 | 3 to 4 ft..... \$2.00

FLOWERING SHRUBS—Continued

Ilex verticillata—Winterberry

A fine, native shrub with bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups for production of berries. M

18 to 24 in.....	\$1.00	4 to 5 ft.....	\$3.50
2 to 3 ft.....	1.50	5 to 6 ft.....	5.00
3 to 4 ft.....	2.25	6 to 7 ft.....	7.50

Kolkwitzia amabilis—Beautybush

A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.50
4 to 5 ft., heavy.....			\$5.00

Ligustrum—Privet

Ligustrum amurense (AMUR PRIVET). True, hardy, upright variety with lustrous leaves. Good for quick-growing screen; plants will attain about 15 ft. in height. F

18 to 24 in.....	\$2.75 per doz., \$22.50 per 100
------------------	----------------------------------

L. ovalifolium (CALIFORNIA PRIVET). The form most usually used for hedges. F

18 to 24 in.....	\$2.50 per doz., \$20.00 per 100
2 to 3 ft.....	\$3.75 per doz., \$30.00 per 100
3 to 4 ft.....	\$4.50 per doz., \$35.00 per 100

Ligustrum Regelianum (REGEL PRIVET). A low, spreading form—almost horizontal. S
2 to 3 ft.....\$1.25

Lindera benzoin—Spicebush

Native shrub with fringed yellow flowers in early Spring. Delicious aromatic leaves and twigs. F

18 to 24 in.....	\$1.25
------------------	--------

Lonicera—Honeysuckle

Lonicera Korolkowii Zabellii. A shrub of medium growth, bearing an abundance of bright red blossoms and bright red fruit. M

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.00
4 to 5 ft.....			\$3.50

Philadelphus—Mockorange

Philadelphus coronarius (SWEET MOCKORANGE). Extremely fragrant variety of Mockorange. White blooms in May and June. F

3 to 4 ft.....	\$1.50	4 to 5 ft.....	\$2.50
5 to 6 ft.....			\$3.50

P. Minnesota Snowflake. (Plant Patent No. 538). This wonderful addition to the Philadelphus family produces a profusion of large, very double, pure white flowers of some fragrance. Truly "snowy" in effect. Bushy, shapely shrub. M

2 to 3 ft.....	\$1.50	4 to 5 ft.....	\$3.50
3 to 4 ft.....	2.00	5 to 6 ft.....	5.00
6 to 7 ft.....			\$7.50

P. virginalis (DOUBLE MOCKORANGE). Fine, double-flowering variety which blooms profusely. Fragrant. M

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.00
----------------	--------	----------------	--------

Prunus glandulosa—Flowering Almond

Profuse, double rosettes cover bare stems in late April or early May. Deep pink or white. M
2 to 2½ ft.....\$1.75 | 2½ to 3 ft.....\$2.50

3 to 4 ft., B&B.....\$3.50

Rhodotypos kerrioides—Jetbead

Small, shapely shrub bearing white flowers in June and shiny, black, bead-like berries in Fall. Handsome foliage. Good in shade. M

2 to 3 ft.....	\$1.50
----------------	--------

Salix caprea—Pussy Willow

Popular shrub for early Spring effect. Does well in dry as well as wet places. F

3 to 4 ft.....	\$1.25
----------------	--------

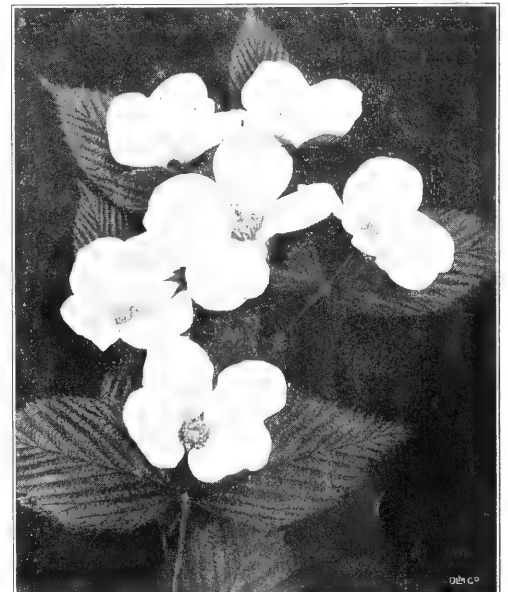

Stephenandra flexuosa—Lace Shrub

Splendid shrub of erect habit, with interesting cutfoliage. Striking at all seasons.

2 to 3 ft.....	\$1.25
----------------	--------

Honeysuckle (*Lonicera Zabellii*)

Jetbead (*Rhodotypos Kerrioides*)

Snowberry (*Symphoricarpos*)

FLOWERING SHRUBS—Continued

Spiraea—Spirea

Spiraea Bumalda, Anthony Waterer (DWARF SPIREA). A small, compact shrub with pink flowers in July. M

18 to 24 in.\$1.25 | 2 to 3 ft.\$1.75

S. prunifolia (TRUE BRIDALWREATH). Long racemes of pure white flowers in May. Small, glossy foliage. M

2 to 3 ft.\$1.50

3 to 4 ft.2.50

4 to 5 ft.3.50

S. Thunbergii (THUNBERG SPIREA). Semi-dwarf, with very fine foliage and small white flowers. Dense. M

3 to 4 ft.\$1.75

S. Vanhouttei (VANHOUTTE SPIREA). Ever-popular with its abundance of small white flower in clusters. F

2 to 3 ft.\$0.85

3 to 4 ft.1.35

4 to 5 ft.2.75

SYRINGA-Lilacs

We have a quantity of plants much larger than those listed here, and we shall be pleased to receive your inquiries or have you make a personal inspection of them.

Syringa chinensis (CHINESE LILAC). Slender branched, graceful Lilac, producing abundant light lavender blooms early in the season. Good for border planting. M

3 to 4 ft.\$2.50

4 to 5 ft.3.50

5 to 6 ft.5.00

S. vulgaris (COMMON PURPLE LILAC). Considered by many as fine as any hybrid. Bears large clusters of fragrant, purple flowers in May. M

2 to 3 ft.\$1.50

3 to 4 ft.2.75

4 to 5 ft.6.00

5 to 6 ft.10.00

S. vulgaris alba (COMMON WHITE LILAC). Fragrant, single white flowers. M

2 to 3 ft.\$1.50

3 to 4 ft.2.50

All ROSEDALE LILACS carry a ball of earth to insure quick starting and real, husky first year growth. There is no extra charge for this better method of handling.

New Double Mockorange (Philadelphus, Minnesota Snowflake)

Flowering Almond (Prunus glandulosa)

French Hybrid Lilacs

Almost everyone knows and loves the old-fashioned purple Lilac, but few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and they bloom at an earlier age than the common Lilac. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss.

Here is a list of favorite varieties which are so beautiful and so different that you will want them all either as specimens or in a border planting. M

2 to 3 ft., B&B.\$3.50

3 to 4 ft., B&B.5.00

4 to 5 ft. — Specimens,

B&B.\$7.50 to 10.00

5 to 6 ft. — Specimens,

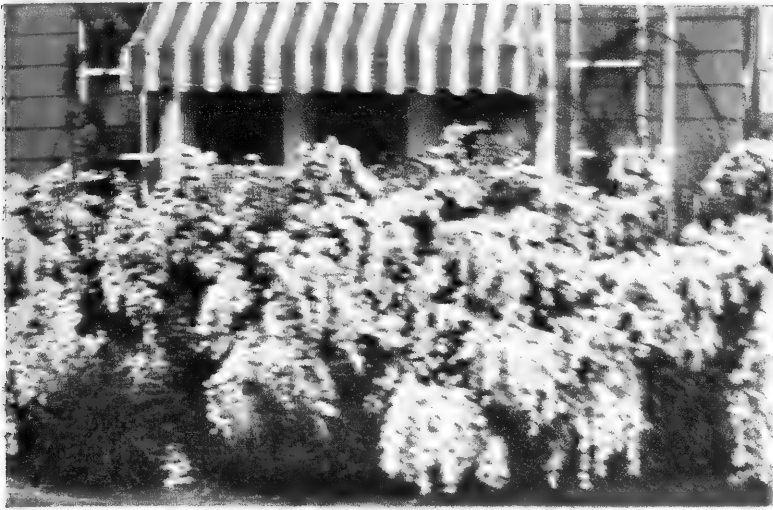

B&B.9.00 to 12.00

Larger sizes priced on application

Beautybush (Kolkwitzia)

Alphonse Lavalle. Double sky-blue.	3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Belle de Nancy. Double satiny rose.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Capitaine Baltet. Single violet red.	3 to 4 ft., 4 to 5 ft.
Charles Joly. Purple-red, one of the best double reds.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Charles X. Single, rich purple-red.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Edith Cavell. Double, creamy-white.	5 to 6 ft., 6 to 7 ft.
Ellen Wilmott. Large, double white.	2 to 3 ft., 3 to 4 ft.
Hugo Koster. Single, rosy-purple.	2 to 3 ft., 3 to 4 ft.
K. Havemeyer. Double blue-violet.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Leon Gambetta. Double mauve pink.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Lucie Baltet. Single, coppery-pink.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Macrostachya. Single, light pink.	3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Marie Le Graye. Single, white.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Mme. F. Morel. Single, lavender.	4 to 5 ft., 6 to 7 ft.
Mme. Lemoine. Tall-growing, double white.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Mme. Stepman. Single, white.	5 to 6 ft., 6 to 7 ft.
Monge. Single, claret-purple.	4 to 5 ft., 5 to 6 ft.
Pasteur. Single purple.	4 to 5 ft., 5 to 6 ft.
Paul Thirion. Double, claret-rose.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Pres. Grevy. Double, popular blue.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.
Pres. Poincare. Double, purple-red.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Souvenir de Ludwig Spaeth. Single, reddish-purple.	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Violetta. Double, deep violet-blue.	3 to 4 ft.

Spiraea Vanhouttei

FLOWERING SHRUBS—Continued

Symphoricarpos—Snowberries

Symphoricarpos albus laevigatus (SNOW-BERRY). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillsides. F

2 to 3 ft.\$1.25 | 3 to 4 ft.\$2.00

S. Chenaultii (CHENAULT'S CORALBERRY). Pink-berried form of Coralberry. Grows compact and has a better than average foliage. F

3 to 4 ft.\$1.50

S. orbiculatus (CORALBERRY). Bears clusters of small red berries which remain most of the Winter. F

2 to 3 ft.\$0.85 | 3 to 4 ft.\$1.25

Tamarix pentandra—Tamarisk

A charming 5 to 7 foot shrub with lacy-like, silvery-blue foliage and large clusters of bright pink flowers giving a pink and silver mist effect in July. F

2 to 3 ft.\$1.25

Vaccinium corymbosum

Highbush Blueberry

A very desirable, bushy shrub with glossy foliage turning brilliant red in Autumn. Creamy-white flowers. M

2 to 3 ft.\$3.25 | 3 to 4 ft.\$4.50 | 4 to 5 ft.\$6.00

VIBURNUMS

This group probably offers more desirable varieties for landscape use than any other family of Shrubs.

Viburnum Americanum (AMERICAN CRANBERRYBUSH). A shrub of rather loose growth particularly desirable for its scarlet berries from early August well into the Winter. Brilliant orange and red Fall foliage. F

3 to 4 ft.\$1.50

V. Burkwoodi (BURKWOOD VIBURNUM). Often called an improved *Viburnum carlesii*—differing in growth, foliage and time of bloom, blooming earlier. Growth is vigorous and foliage glossy. Very fragrant creamy-white flowers. S

2 to 3 ft.\$7.50 | 3 to 3½ ft.\$9.00

V. Carlesii (FRAGRANT VIBURNUM). Most fragrant of all flowering shrubs. A single blossom will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Creamy white blooms in considerable profusion. S

15 to 18 in., 6 in. pots.\$4.50 | 2 to 2½ ft.\$7.50

18 to 24 in., 6 in. pots.6.00 | 2½ to 3 ft.9.00

3 to 3½ ft.\$12.00

V. dentatum (ARROWWOOD). Bushy shrub with white flowers, blue berries. Fine for shade. F

2 to 3 ft.\$1.25 | 4 to 5 ft., B&B.\$3.50

3 to 4 ft.2.00 | 5 to 6 ft., B&B.5.00

V. dilatatum (LINDEN VIBURNUM). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries making the entire shrub appear red. M

3 to 4 ft.\$3.50 | 4 to 5 ft., B&B.\$5.00

5 to 6 ft., B&B.\$8.00

Heavy Specimens....Priced on selection

Vitex

VIBURNUMS—Continued

V. plicatum (DOUBLE JAPANESE SNOWBALL). Showy white flowers in rounded clusters during June. Rich foliage and deep red coloring in the Fall. M

2 to 3 ft.\$2.00

V. plicatum tomentosum (SINGLE JAPANESE SNOWBALL). White flowers in profusion followed by red berries. Foliage red in Fall. M

2 to 3 ft.\$1.50 | 3 to 4 ft., heavy, B&B.\$3.50

3 to 4 ft.2.50 | 4 to 5 ft., B&B.5.00

V. prunifolium (BLACKHAW). Pure white flowers in May and June; blue-black fruits in late Fall. The vivid Fall foliage and the interesting patterns from irregular branching make this most desirable. F

2 to 3 ft.\$1.75

V. Sieboldii (SIEBOLD VIBURNUM). Vigorous shrub attaining great size. Pink berries changing to black. Large, deep green, leathery leaves. F

3 to 4 ft.\$2.50 | 4 to 5 ft., B&B.\$3.50

5 to 6 ft., B&B.\$5.00

V. setigerum (TEA VIBURNUM). Large, compound white flowers followed by huge clusters of bright red berries. Probably the most showy of all Viburnums when in berry. M

4 to 5 ft.\$5.00 | 5 to 6 ft.\$7.50

Vitex Agnus-castus latifolia

Chaste Tree

A graceful shrub with spires of lovely lavender-blue flowers in profusion from July to frost. Dies back in Winter similar to Buddleja. F

18 to 24 in.\$1.00 | 2 to 3 ft.\$1.25

3 to 4 ft.\$2.75

Weigela—Weigelia

Weigela Bristol Ruby (An improved form of *Eva Rathke*). Hardier and more vigorous, developing to a more shapely shrub. Blooms are a soft ruby-red shading to garnet-crimson. F

2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00

4 to 5 ft.\$3.50

W. Feerie. This graceful shrub produces an enormous profusion of most delightful soft pink flowers a week or so earlier than florida. F

2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00

W. florida alba (CANDIDA). Pure white flowers in June. Medium growth.

2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00

W. floribunda (CRIMSON WEIGELA). Bright crimson flowers on extremely vigorous, and generally large, shrub. F

2 to 3 ft.\$1.00 | 3 to 4 ft.\$1.75

4 to 5 ft.\$2.25

Viburnum Burkwoodi

A ROSEDALE *Would You Too Like to Enjoy*

How often have you thought you would like to have sound professional advice on the planning and actual selection of healthy, desirable plants, but did not know quite where to turn—where to start!

As a result of this dilemma, perhaps you are still living with an annoying "Raggedy Ann" planting—or none at all!

We suggest that you

Consult Rosedale's PLANNING Service

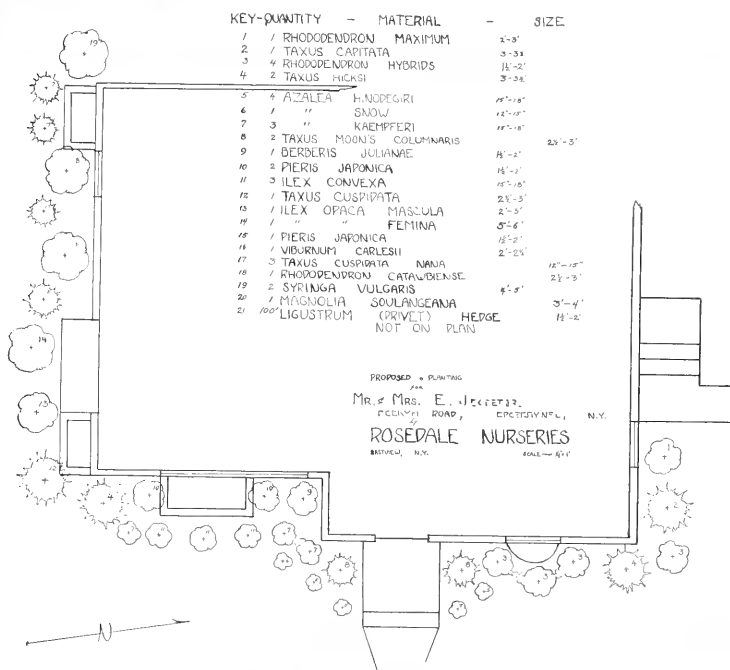

Our trained and experienced landscape designers will be glad to work with you in solving your planting problems whether you have a large estate or a cottage. We are thoroughly equipped to help you. The most suitable plants will be suggested for the location to be planted. This means the growth habits of plants are thoughtfully considered in order to assure you the most long-lasting—as well as the most attractive—results.

Perhaps you would like:

- ... A complete plan for planting your entire home grounds.
- ... A hedge to give you privacy.
- ... A plant barrier to keep out winds, noise.
- ... A "custom-made" foundation planting of year-round beauty.
- ... A magnificent Rose Garden.
- ... Colorful Shrub borders.
- ... A new planting for an old, overgrown one.
- ... Climate controlled home and grounds.

In any case, ROSEDALE'S PLANNING SERVICE CAN BE OF ASSISTANCE TO YOU.

1. We will be glad to discuss your problem with you and, if desirable, visit the area to be planted.
2. If you wish us to proceed, we will draw up a specific planting plan for YOUR needs—incorporating your ideas and favorite plants—and submit it to you with an estimate of cost. There is no charge for this plan if \$100 of plant materials are purchased.
3. We will show you at the nurseries what the suggested plants look like so that you will have a better idea of how the completed planting will look.

As an example of Rosedale's Planning Service we show here a house, newly-built and without planting. A planting plan was drawn up, showing the layout of the plants and the varieties and sizes suggested. The home with the foundation planting and hedge gives a warm, hospitable feeling. The materials including peat moss and humus amount to \$296.—Preparing the soil and planting \$85.—Total job installed for \$381.

Beauty and complete privacy can be obtained through proper planting. Note interesting treatment of wall.

PLANTING LASTS LONGER YET COSTS NO MORE

the Beauty and Restfulness of a Well-Designed Planting?

Rosedale's Planting Service

Then with experienced, landscape planting foremen—trained to follow planting plans to a nicety—will, with well-trained crews, do the planting for you, leaving you with a **completed** planting with no clean-up work left for you in the area planted.

Careful planning can accomplish not only an attractive planting—successful from the standpoint of looks and living areas—but “climate-controlled” conditions for home and grounds as well.

How is this accomplished? Strategic use and placement of certain types of vines, shade trees, screen plantings all add up to warmer areas in Winter, cooler ones in Summer. It sounds like double-talk but here is one example: A deciduous hedge, well-placed, will keep the warm afternoon Summer sun from the house or sitting area. In the Winter, when the leaves are gone, the sun is welcomed and warms the house or area where possibly the children play. This same type of planning can be carried out in many other ways, too.

This delightful terrace comfortably planted for best usage and effect—and least maintenance—beckons on hot, Summer days. (A Yew hedge on the extreme left, barely visible here, gives desired seclusion.)

Now—“Year-Round” PLANTING

Due to a revolutionary, new, plastic, latex spray, WILT-PRUF, which Rosedale has developed, we can plant and transplant both evergreen and deciduous materials all year-round, provided, of course, the ground is workable.

This amazing new spray, WILT-PRUF, “coats” the leaves with a thin, transparent film which prevents wilt and loss of moisture during the transplanting and during the period of becoming re-established. This film is invisible except for possibly a faint sheen.

This is a decided boon to planting at your Summer home, when, heretofore, you found it inconvenient to get to the country for early Spring planting.

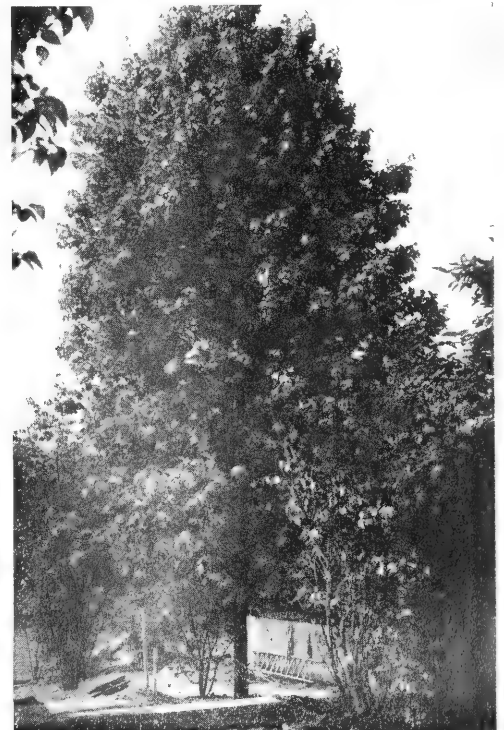

WILT-PRUF being applied on Philadelphus (Mockorange) in full bloom in June prior to digging in the nursery and planting on a landscape job.

You are
very
cordially

invited to visit Rosedale Nurseries. Inspect our acres of fine, vigorous stock, and take advantage of our **Landscape Planning Service.**

* * *

New modern methods now make it possible to transplant trees in full leaf with complete success, thus extending the planting season. This Maple was treated with a plastic spray to prevent desiccation and is shown after transplanting in July.

Broadleaved Evergreens (Evergreen Shrubs)

Colorful
Display of
Azaleas
Against
Evergreen
Background

This group of "double-duty" plants with both evergreen qualities and most beautiful flowers offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year to provide colorful as well as evergreen effects in the well-planned landscape planting.

We have an unusually fine selection of these flowering broadleaved evergreens and urge you to come to the nurseries to make a selection.

ALL BROADLEAVED EVERGREENS ARE B&B

For planting instructions, please see page 7

Abelia grandiflora Glossy Abelia

A splendid half-evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot. M

2 to 3 ft. hgt. \$3.50
3 to 4 ft. hgt. 5.00

Wintergreen Barberry (*Berberis Julianae*)

AZALEAS

Azalea amoena (*Evergreen*). Small, boxlike leaves on a neat, compact plant of rounded form. Covered with rosy-purple flowers in Spring. Leaves warm bronze hue in Winter. Very hardy. S
12 to 15 in. spr. \$4.00 | 5 to 6 ft. spr. \$45.00

A. hinodegiri (*Evergreen*). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage turning bronze in Winter. The flowers are clear, fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron. May need some Winter protection in exposed locations or north of the nurseries. Our stock is thick and compact and loaded with flower buds. S

8 to 10 in. spr. \$1.85
10 to 12 in. spr. 2.50
12 to 15 in. spr. 4.25
15 to 18 in. spr. 5.25
18 to 24 in. spr. 7.50

A. hinomayo (*Evergreen*). Similar to Hinodegiri in form and foliage but with soft clear pink flowers in May. S

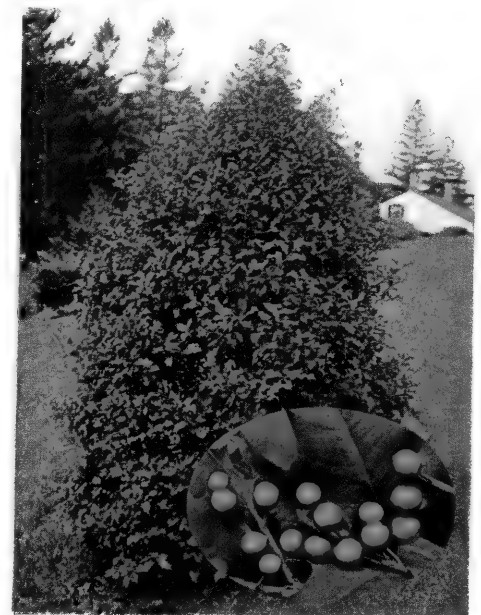

12 to 15 in. spr. \$4.00

A. indica alba (*Half Evergreen*). Also called Snow Azalea. A fine combination with Hinodegiri as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S

10 to 12 in. spr. \$2.50
15 to 18 in. spr. 5.25
18 to 24 in. spr. 7.50
2 ft. spr. 9.00

A. kaempferi (**TORCH AZALEA**). Not completely evergreen but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon-pink in varying shades in this group of hybrids.

12 to 15 in. hgt. \$4.25
15 to 18 in. hgt. 5.25
2 to 3 ft. hgt. 7.50
3 to 4 ft. hgt. 10.00

American Holly (*Ilex opaca*)

BROADLEAVED EVERGREENS—Continued

Azalea Kurume, Sweet Briar. An outstanding hardy variety of evergreen Azalea. Rose-pink blooms in great profusion. S

18 to 24 in. spr.\$7.50

A. J. T. Lovett. This evergreen Azalea bears large carmine blooms in late May throughout June. Especially useful for its late-blooming quality.

12 to 15 in. spr.\$4.25 | 15 to 18 in. spr.\$5.25

A. Mrs. L. C. Fischer. Semi-double blooms of salmon-pink with carmine markings on shrub of medium growth.

10 to 12 in. spr.\$3.50

A. macrantha (Evergreen). An outstanding evergreen type with delightful single, salmon-pink flowers a month later than most Azaleas. S

8 to 10 in. spr.\$2.00

A. poukhanense (Half Evergreen). A broad plant of finest form with delicate lavender buds opening to extremely large, delightful pink blooms; sweetly scented. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend Azalea poukhanense too highly. Our stock is large and well grown. M

8 to 10 in. spr.\$2.00 | 12 to 15 in. spr.\$3.75

10 to 12 in. spr.2.50 | 15 to 18 in. spr.4.25

18 to 24 in. spr.\$5.25

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which although not evergreen are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms, usually in mid-June, have a delightful fragrance. A most desirable variety for mass plantings of native material. M

15 to 18 in. hgt.\$3.25 | 2 to 2½ ft. hgt.\$5.00

18 to 24 in. hgt.4.25 | 2½ to 3 ft. hgt.7.50

3 to 3½ ft. hgt.\$12.00

A. calendulacea (FLAME AZALEA). A brilliant orange and yellow flowering native shrub. Tall but slow-growing. Free flowering. F

Firethorn (Pyracantha Lalandii)

15 to 18 in. hgt.\$2.75

18 to 24 in. hgt.3.75

2 to 2½ ft. hgt.5.00

2½ to 3 ft. hgt.7.00

3 to 4 ft. hgt.10.00

4 to 5 ft. hgt.12.00

5 to 6 ft. hgt.15.00

A. mollis Hybrids (CHINESE AZALEAS). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M

12 to 15 in. hgt.\$2.75

15 to 18 in. hgt.5.00

18 to 24 in. hgt.6.00

A. mucronulata. A most worthwhile variety for planting in front of Forsythia as it blooms at same time and the color combination is most striking. Flowers are lavender-pink. F

18 to 24 in. hgt.\$4.50

2 to 2½ ft. hgt.7.50

2½ to 3 ft. hgt.9.00

4½ to 5 ft. hgt.25.00

A. nudiflora (PINXTERBLOOM or WILD HONEYSUCKLE). This lovely native Azalea is known to all who have tramped the woodlands in May. Fragrant pink. F

18 to 24 in. hgt.\$3.00

2 to 3 ft. hgt.4.50

3 to 4 ft. hgt.6.00

4 to 5 ft. hgt.10.00

A. n. rosea (DOWNY PINXTER AZALEA). Sometimes confused with A. nudiflora but is harder and deeper in coloring. Very fragrant, rosy-pink flowers. Attains 9 or 10 ft. in height but is usually seen about 3 ft. Prefers half-shade and grows in either acid or lime soil. F

2 to 2½ ft. hgt.\$4.00

2½ to 3 ft. hgt.5.00

3 to 3½ ft. hgt.7.50

3½ to 4 ft. hgt.10.00

4 to 5 ft. hgt.15.00

A. vaseyi (PINKSHELL AZALEA). Shell-pink flowers in May cover the entire plant and make a striking picture. Very lovely. F

18 to 24 in. hgt.\$4.50

2 to 2½ ft. hgt.6.00

2½ to 3 ft. hgt., heavy7.50

3 to 3½ ft. hgt.10.00

3½ to 4 ft. hgt.12.00

4 to 5 ft. hgt.15.00

Andromeda (Pieris japonica)

Mountain Laurel (Kalmia latifolia)

A. viscosa (SWAMP AZALEA). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to So. Carolina and attains 4 to 8 ft. in height. F

2 to 3 ft. hgt.\$5.00

3 to 4 ft. hgt.7.50

4 to 5 ft. hgt.9.00

Berberis—Barberry

Berberis Julianae (WINTERGREEN BARBERRY). Evergreen. Tiny yellow flowers and purple fruit. Good ornamental for border, foundation or hedge. M

15 to 18 in. hgt.\$4.50

18 to 24 in. hgt.5.50

2 to 2½ ft. hgt.7.00

2½ to 3 ft. hgt.8.00

3 to 4 ft. hgt.15.00

B. verruculosa (WARTY BARBERRY). Dwarf evergreen with colorful, glossy foliage. Very spiny and attractive all year. S

10 to 12 in. hgt.\$4.00

Hybrid Rhododendrons

Azalea Mollis Hybrids

Daphne cneorum Rose Daphne

Rose Daphne is a dainty little bush 1 to 2 ft. high with gray-green foliage, each shoot tipped with clusters of clear rose-pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil and must have full sun and soil that does not become caked. S

12 to 15 in. spr.	\$2.50
15 to 18 in. spr.	3.50

ILEX — The Hollies

Our imaginations are stirred by the familiar sight of a full-grown Holly tree aglow with red berries not only because of its association with Christmas spirit and cheer but by the crisp, dominant, year-round personality. Only one of this group looks anything like the Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

Ilex crenata (JAPANESE HOLLY). A rapid-growing, dense evergreen bush with deep green, boxwood-like foliage. A beautiful and permanent plant of real character. F

18 to 24 in. hgt.	\$7.50	3 to 3½ ft. hgt.	\$15.00
2½ to 3 ft. hgt.	12.00	3½ to 4 ft. hgt.	20.00
4 to 4½ ft. hgt.	\$30.00		

I. c. convexa (BOXLEAF HOLLY). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M

12 to 15 in. spr.	\$3.50	18 to 24 in. spr.	\$6.00
15 to 18 in. spr.	4.75	2 to 2½ ft. spr.	7.50
2½ to 3 ft. spr.	\$9.00		

I. c. rotundifolia (ROUNDLEAF HOLLY). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester. M

15 to 18 in. hgt.	\$4.75	2½ to 3 ft. hgt.	\$9.00
18 to 24 in. hgt.	6.00	3 to 3½ ft. hgt.	15.00
2 to 2½ ft. hgt.	7.50	3½ to 4 ft. hgt.	25.00

ILEX crenata Stokes (STOKES HOLLY). (Plant Pat. No. 887).

A new dwarf, very slow-growing Holly of exceptional merit. Especially good for edgings, rock gardens, foundations as it does not outgrow its location. Unusually hardy. This wonderful plant has been acclaimed by the *Herald Tribune* Plant Jury as outstanding for 1952. S

6 to 8 in. spr.	\$1.75	8 to 10 in. spr.	\$3.25
10 to 12 in. spr.	\$4.00		

EVERGREEN SHRUBS — Continued

Ilex crenata Green Island (Plant Pat. No. 817). An improved boxleaf Holly with broader foliage of deepest glossy green; hardy and dependable. Growth is moderate and form is low mounded. An ideal evergreen for modern planting. M

12 to 15 in. spr.	\$3.50
15 to 18 in. spr.	4.50
18 to 24 in. spr.	6.25

I. glabra (INKBERRY). A bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall; useful for shady and moist locations. M

15 to 18 in. hgt.	\$3.50
18 to 24 in. hgt.	5.00

I. opaca (AMERICAN HOLLY). The well-known Christmas Holly, with red berries. Grows to a large tree but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently.

2 to 3 ft. hgt.	\$6.50
3 to 4 ft. hgt.	9.50
4 to 5 ft. hgt.	12.00
5 to 6 ft. hgt.	20.00
6 to 7 ft. hgt.	\$25.00 to 35.00
7 to 8 ft. hgt.	35.00 to 45.00
8 to 9 ft. hgt.	45.00 to 60.00

Berries of Cotoneaster

COTONEASTERS

The large family of Cotoneasters has many members of high value for landscape plantings. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit more than floral beauty for decorative effect. They do not transplant as readily as some shrubs and must be handled carefully during the transplanting operation. However, in an open situation, they generally prove to be very hardy throughout northern United States. The interesting branching habits, both the low, sprawly types and those with arching branches, are decorative all year.

Cotoneaster divaricata (SPREADING COTONEASTER). A broadly spreading shrub which has tiny, glossy leaves interspersed with scarlet berries in Fall. Vigorous grower.

18 to 24 in. hgt.	\$4.50
-------------------	--------

C. Franchetii (FRANCHET COTONEASTER). Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September. Foliage gray-green. F

15 to 18 in. hgt.	\$2.50	18 to 24 in. hgt.	\$3.50
2 to 3 ft. hgt.	\$6.00		

C. Henryana (HENRY COTONEASTER). A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope.

18 to 24 in. hgt., 6 in. pots.	\$5.00
--------------------------------	--------

C. Horizontalis (ROCK COTONEASTER). A creeping form with very low almost horizontal branches bearing a profusion of bright red berries. Especially effective fruiting variety for the rockery.

12 to 15 in. spr.	\$2.75	15 to 18 in. spr.	\$3.50
18 to 24 in. spr.	\$5.00		

Kalmia latifolia Mountain Laurel

The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil. M

15 to 18 in. spr.	\$2.75	2 to 2½ ft. hgt.	\$4.75
18 to 24 in. hgt.	3.50	2½ to 3 ft. hgt.	6.00
3 to 4 ft. hgt.	\$9.00		

Leucothoe catesbaei Drooping Leucothoe

Beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks and the cutting improves the plant. M

15 to 18 in. spr.	\$2.75	18 to 24 in. spr.	\$4.25
-------------------	--------	-------------------	--------

Rose Daphne

Boxleaf Holly (*Ilex convexa*)

EVERGREEN SHRUBS—Continued

RHODODENDRONS

Rhododendrons require little care after they become established, except possibly some judicious pruning to keep them full and bushy and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil which is moist but well-drained. (They dislike "wet feet".) They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

Rhododendron carolinianum (CAROLINA RHODODENDRON).

A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose-pink bloom. A great favorite. S

15 to 18 in. hgt.	\$4.00	2½ to 3 ft. hgt.	\$9.00
18 to 24 in. hgt.	5.50	3 to 4 ft. hgt.	\$12.00 to 18.00
2 to 2½ ft. hgt.	7.00	5 to 7 ft. hgt.	25.00 to 40.00

R. catawbiense (CATAWBA RHODODENDRON). Native, free-flowering and the parent of most hybrids. Will grow in any soil that is free from lime, is very hardy, and needs little attention. Large, round clusters of deep rosy-purple flowers, appearing in May or June—just after Carolina Rhododendron. Well budded plants. M

15 to 18 in. hgt.	\$4.00	3 to 3½ ft. hgt.	\$10.00
18 to 24 in. hgt.	5.00	3½ to 4 ft. hgt.	15.00
2 to 2½ ft. hgt.	6.00	4 to 5 ft. hgt.	20.00
2½ to 3 ft. hgt.	7.50	5 to 7 ft. spec., hgt.	\$25.00 to 50.00

R. maximum (ROSEBAY RHODODENDRON). Our native Rhododendron with white and light pink flowers. Nursery-grown plants. M

18 to 24 in. hgt.	\$3.50	3½ to 4 ft. hgt.	\$9.00
2 to 3 ft. hgt.	5.00	4 to 5 ft. hgt.	\$12.00 to 15.00
3 to 3½ ft. hgt.	7.50	5 to 6 ft. hgt.	15.00 to 20.00
6 to 7 ft. hgt.	\$25.00 to \$35.00		

Special for naturalizing

12 to 24 in. hgt. \$1.75 each, \$40.00 per 25

RHODODENDRON HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids—that is, grafted stock—that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

Lavender, Pink and Purple Varieties

2 to 2½ ft. hgt.	\$15.00	2½ to 3 ft. hgt.	\$17.50
3 to 3½ ft. hgt.	\$20.00		

Red and White Varieties

18 to 24 in. hgt.	\$12.50	2½ to 3 ft. hgt.	\$20.00
2 to 2½ ft. hgt.	15.00	3 to 3½ ft. hgt.	35.00

Sizes available are indicated by the letters as shown:

B.	18 to 24 in.	C.	2½ to 3 ft.
D.	2 to 2½ ft.	E.	3 to 3½ ft.

Larger specimens are available and are priced on selection

Caractacus. A fine rich purple-crimson flower of well-known variety. Blooms late. BCD

Catawbiense album. Large blush blooms changing to purest white. A hardy, compact variety. Late. BCDE

Catawbiense grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety. BCDE

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. one of the best reds and one of the best hybrids. Midseason. BC

Ignatius Sargent. Light clear red, exceptionally large trusses. Vigorous and rapid-growing. Long a favorite. Late. C

Lee's Dark Purple. Deep rich purple. Hardy, slower growing variety. Late. CD

Mrs. P. Den Ouden. A beautiful new red variety. Hardy. Midseason. BC

Prof. F. Bettex. A fine red. Hardy. Late. BC

Roseum elegans. A brilliant rose-pink. Handsome foliage. Vigorous and hardy—an altogether outstanding Hybrid. Midseason. CD

Vanderbrocke. A crimson-red. Hardy. Late. BC

Vanderhoop. Carmine-rose. Hardy. Late. BCD

Vanweerden Poeiman. A red. Hardy. Late. CD

Pieris — Andromeda

Pieris floribunda (AMERICAN ANDROMEDA). Hardy, Laurel-like leafed plant of tremendous value in a broadleaf planting. Flowers are tiny and bell-shaped growing in showy, upright clusters. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained all Winter. M

12 to 15 in. spr.	\$3.75	15 to 18 in. spr.	\$5.50
------------------------	--------	------------------------	--------

P. Japonica (JAPANESE ANDROMEDA). Foliage and general form similar to floribunda. This handsome plant with its glossy leaves in various shades, however, bears its lovely white flowers in sprays of Lily-of-the-Valley-like clusters in very early Spring. M

18 to 24 in. hgt.	\$5.00	2½ ft. hgt., heavy.	\$9.00
2 to 2½ ft. hgt.	7.50	2½ to 3 ft. hgt.	12.00

Pyracantha coccinea Lalandii

Firethorn

This very popular semi-evergreen shrub has strong, slender branches from the ground with stubby side growths which bear innumerable orange-red berries. Amazingly beautiful in Fall. Very good effects when espaliered.

6 in. pots.	\$2.25	2 to 3 ft. hgt.	\$6.00
3 to 4 ft. hgt.	\$7.50		

GROUND COVERS

Lonicera japonica Halliana — *Honeysuckle*

Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F

2 yr. 40c. each, \$4.50 per doz., \$35.00 per 100

Pachysandra terminalis

Japanese Spurge

Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M

Rooted Cuttings

\$6.00 per 100, \$50.00 per 1000

Vinca minor

Myrtle

Dense evergreen ground cover, with small, dark, green leaves on slender trailing branches. Blue flowers in late Spring. M

2 yr. field-grown, \$3.00 per doz., \$22.50 per 100

V. m. Bowles variety. Similar to *V. minor* in form and evergreen habit of growth but with lavender-blue flowers all Summer. S

2 yr. field-grown, \$4.50 per doz., \$35.00 per 100

Pachysandra

FLOWERING TREES

The loveliness of a Flowering Tree is a constant delight! At the height of the blooming period; when in full leaf; when fruiting, as so many Flowering Trees do; and during the brilliance of Autumnal coloring, they are always an exceptionally fine addition to the landscape. A solid investment on the part of the homeowner, for they increase in beauty and value as the years pass.

All the varieties listed below are hardy and carefully chosen to give complete satisfaction, no matter whether planted as lawn specimens or in the border or planted among evergreens.

We welcome you to make a selection at the nursery.

**ALL FLOWERING TREES ARE BALLED AND BURLAPPED (B&B)
EXCEPT AS MARKED BARE ROOT (BR)**

*For planting instructions, please see page 7 for B&B material
and page 26 for BR material*

Cercis canadensis

Redbud or Judas Tree

A large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. Picturesque in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. Best transplanted when young. We offer the following fine stock for early transplanting. M

5 to 6 ft. hgt., BR.....	\$ 5.00
6 to 7 ft. hgt.....	8.50
7 to 8 ft. hgt.....	12.00
8 to 10 ft. hgt.....	20.00
10 to 12 ft. hgt.....	35.00

Cornus—Dogwood

Cornus florida (WHITE DOGWOOD). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. Foliage is deep green turning a brilliant red in Autumn with red berries. M

3 to 4 ft. hgt.....	\$5.50
4 to 5 ft. hgt.....	8.00
5 to 6 ft. hgt.....	12.00
7 to 8 ft. hgt.....	20.00
8 to 9 ft. hgt.....	25.00
10 to 12 ft. hgt.....	35.00

Heavier Specimens priced on selection

C. florida rubra (PINK DOGWOOD). Similar to our native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods are extremely scarce and all sizes may not be available. M

2 to 3 ft. hgt..	\$5.50	3 to 4 ft. hgt..	\$8.00
4 to 5 ft. hgt.....	\$15.00		

Weeping Japanese Cherry (Prunus subhirtella)

Franklin Tree (Franklinia alatamaha)

Crataegus Phaenopyrum (WASHINGTON THORN). Upright tree of medium size. Blooms are clustered white; fruit, brilliant red. Ideal hedge form or will make a fine specimen tree. M

4 to 5 ft. hgt.....	\$5.00	7 to 8 ft. hgt.....	\$25.00
5 to 6 ft. hgt.....	7.50	8 to 10 ft. hgt.....	35.00
6 to 7 ft. hgt.....	15.00	10 to 12 ft. hgt.....	45.00

C. oxyacantha (ENGLISH HAWTHORN). Double pink flowers in late Spring. One of the finest. M

5 to 6 ft. hgt., BR.....	\$5.00	5 to 6 ft. hgt., B&B.....	\$7.50
--------------------------	--------	---------------------------	--------

Franklinia alatamaha

Franklin Tree or Gordonia

A small tree of extraordinary beauty in the Fall. Attaining 20 feet in height, the graceful branches sweep the ground if allowed natural growth. If the lower branches are removed, the trunk appears smooth, silky and grey. The marble-like buds open about September first to large, creamy white flowers with deep, orange-yellow centers. While still flowering, the shiny green leaves take on the brilliant crimson and scarlet Fall coloring, a strikingly beautiful sight. The Franklin Tree prefers full sun, and a somewhat moist, but well drained soil near lake, pool or stream. M

5 to 6 ft. hgt.....	\$7.50	6 to 7 ft. hgt.....	\$10.00
---------------------	--------	---------------------	---------

Laburnum watereri

Golden Chain

Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than Laburnum vulgare. M

5 to 6 ft. hgt.....	\$7.50	6 to 7 ft. hgt.....	\$10.00
---------------------	--------	---------------------	---------

Pink Dogwood
(Cornus florida rubra)

CORNUS—Continued

C. Kousa (KOUSA DOGWOOD). White flowers borne after the leaves come out. Large, Strawberry-like crimson fruit. M

3 to 4 ft. hgt.....	\$ 6.00
4 to 5 ft. hgt.....	8.50
5 to 6 ft. hgt.....	12.00
6 to 7 ft. hgt.....	15.00
7 to 8 ft. hgt.....	20.00
8 to 10 ft. hgt.....	30.00
10 to 12 ft. hgt.....	45.00

Crataegus—Hawthorn

Crataegus Arnoldiana (ARNOLD HAWTHORN). Bright, crimson-fruited Hawthorn of medium size. Zigzag branches with stout spines. Interesting, upright shape. M

7 to 8 ft. hgt.....	\$20.00
8 to 10 ft. hgt.....	35.00

Star Magnolia
(Magnolia stellata)

FLOWERING TREES—Continued

Magnolia

Magnolia Soulangeana (SAUCER MAGNOLIA). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M

2 to 3 ft. hgt.	\$ 7.50
3 to 4 ft. hgt.	10.00
4 to 5 ft. hgt.	15.00
5 to 6 ft. hgt.	20.00

M. stellata (STAR MAGNOLIA). Small, broad, rounding habit with star-shaped flowers of pure dazzling white. Hardest and finest of all. S

18 to 24 in. hgt.	\$ 4.25
2 to 3 ft. hgt.	9.00
3 to 4 ft. hgt.	15.00
4 to 5 ft. hgt.	25.00
5 to 6 ft. hgt.	\$30.00 to 35.00

M. stellata Rosea (PINK STAR MAGNOLIA). Same as stellata except for dainty rose-pink flowers.

3 to 4 ft. hgt.	\$15.00
4 to 5 ft. hgt.	25.00

Almey Crab

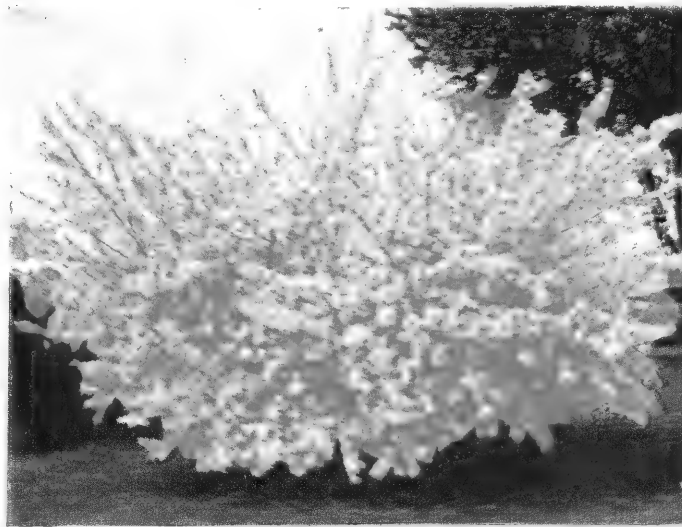

Malus
Flowering
Crabapple

It is difficult to adequately describe this most delightful group of Flowering Trees — such a wealth of color, fragrance and fruits do these afford. Also, no matter what habit of growth you might want — whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you.

Malus Almey (ALMEY CRAB).

An outstanding, vigorous new Crab with large blossoms of unfading glistening red and white markings at petal base giving a star effect. Selected by 1951 *Herald Tribune* plant jury. F

4 to 5 ft. hgt., BR.	\$3.75
5 to 6 ft. hgt., BR.	5.00
5 to 6 ft. hgt., B&B.	\$7.50
6 to 7 ft. hgt., B&B.	10.00

Flowering Crab (Malus Spectabilis)

Malus floribunda. A single rose-pink variety bearing an abundance of fruit even when young. Very attractive to birds. Vigorous grower. M

3 to 4 ft. hgt.	\$6.00	5 to 6 ft. hgt.	\$17.50 to \$25.00
-----------------	--------	-----------------	--------------------

M. huphensis (TEA CRAB). Irregular, spreading top with zigzag branches completely clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red. Tree effect in bloom is Apple-like. In form, vase shaped. F

4 to 5 ft. hgt., BR.	\$2.75
----------------------	--------

M. ioensis plena (BECHTEL'S CRAB). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful, rose-like fragrance. A very fine variety. S

4 to 5 ft. hgt., BR.	\$5.00
4 to 5 ft. hgt., B&B.	7.50
5 to 6 ft. hgt.	10.00

M. Pink Weeper (PINK WEEPING CRAB). One of the very few truly weeping Crabs. Arching branches graced by cascades of bright pink flowers. S

4 to 5 ft. hgt.	\$7.50
-----------------	--------

M. purpurea (PURPLE-LEAF CRAB). Brilliant foliage of rich reddish-purple. Single, deep red flowers and red fruit in clusters. M

6 to 7 ft. hgt.	\$10.00
7 to 8 ft. hgt.	15.00
8 to 10 ft. hgt.	25.00

Flowering Cherry (Prunus Kwanzan)

MALUS Continued

Malus adstringens Hopa. Erect form, with symmetrical, purple-tinged leaves and large red, single flowers. The dark red fruit of this variety is good for jelly and is most decorative of all varieties. F

5 to 6 ft. hgt., BR.	\$5.00
5 to 6 ft. hgt., B&B.	7.50
6 to 7 ft. hgt.	10.00

M. Arnoldiana (ARNOLD CRAB). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M

4 to 5 ft. hgt.	\$6.00
5 to 6 ft. hgt.	7.50

M. atrosanguinea (CARMINE CRAB). Single crimson flowers in great profusion. Low-headed tree, spreading habit with slightly twisted branches. M.

4 to 5 ft. hgt.	\$9.00
5 to 6 ft. hgt.	\$12.00 to \$15.00
6 to 7 ft., heavy.	22.50

Saucer Magnolia (Magnolia Soulangeana)

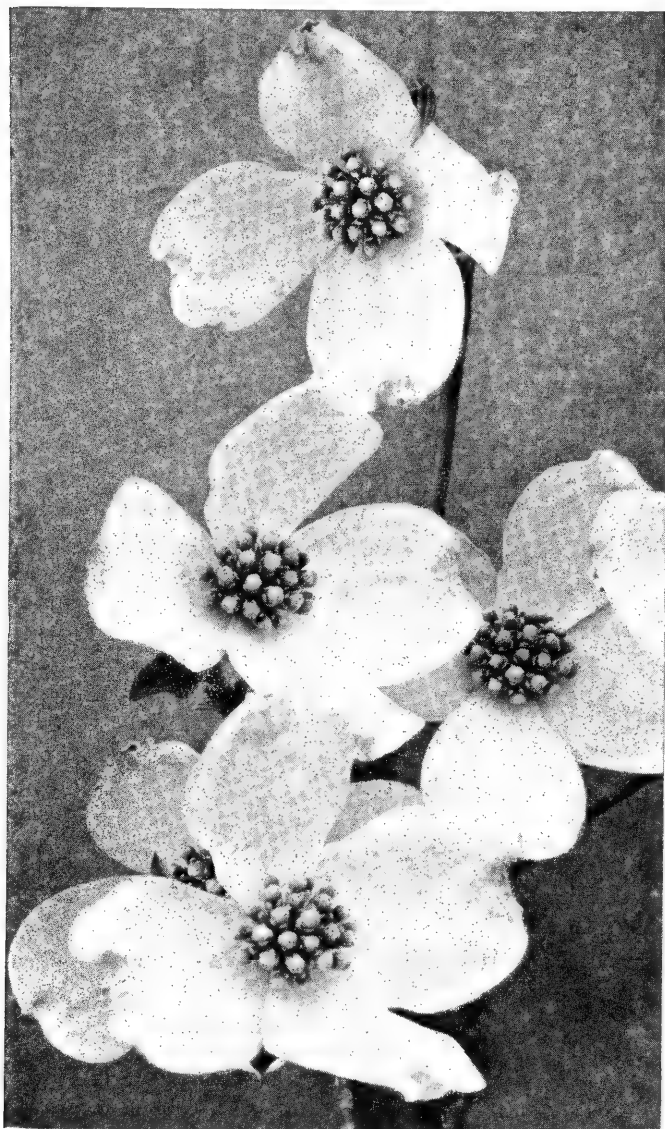

Mountain Ash (Sorbus Aucuparia)

FLOWERING TREES—Continued

MALUS—Continued

Malus Sargentii (SARGENT'S CRAB). A dwarf, bushy, hardy variety. Sparkling white flowers and an abundance of small, red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S

Dogwood (Cornus)

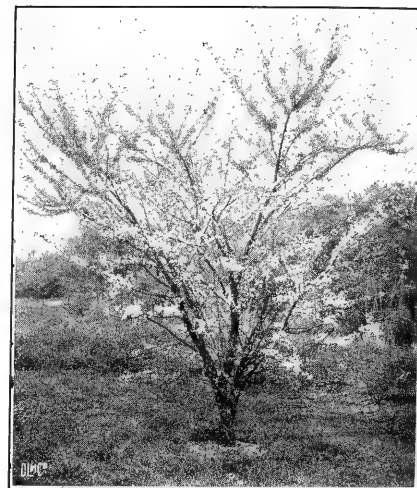

2 to 3 ft. spr., BR...\$2.75
3 to 4 ft. spr. heavy.
\$7.50 to 10.00
4 to 5 ft. spr.....15.00
5 to 6 ft. spr.....20.00

M. Scheideckeri (SCHEI-
DECKER'S CRAB). Very
early, double bright pink
blossoms. Bears waxy, yellow,
fruit-like cherries. Distinctly
upright. Slender. M

4 to 5 ft. hgt., BR...\$2.75
5 to 6 ft. hgt..... 9.00
6 to 7 ft. hgt.....12.00

M. Spectabilis (CHINESE CRAB). A shapely tree, with good, shiny foliage, and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M

4 to 5 ft. hgt., BR.....\$2.75
4 to 5 ft. hgt..... 5.00

Redbud (Cercis)

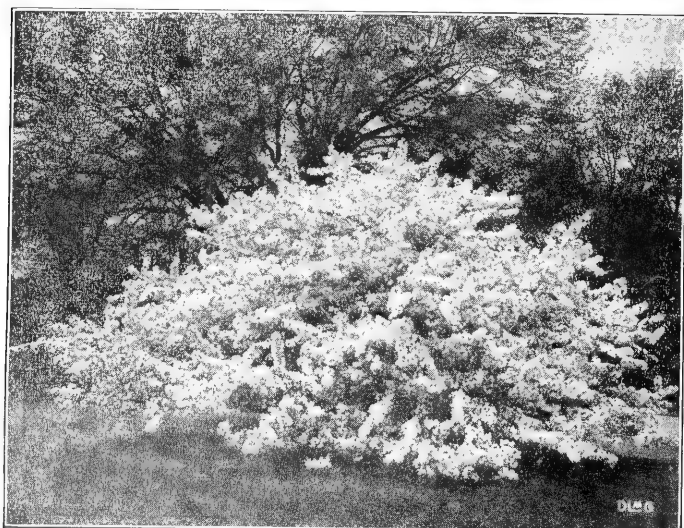

Oxydendrum arboreum—Sorrel Tree

A comparatively dwarf tree bearing an abundance of white flowers in Midsummer with foliage several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M

3 to 4 ft. hgt.....\$5.00
4 to 5 ft. hgt..... 7.50
5 to 6 ft. hgt..... 9.00
6 to 7 ft. hgt.....12.00

PLANTING SUGGESTIONS FOR BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Farmanure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem).
4. Cover roots with soil mixed with liberal amounts of Farmanure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

Sargent's Crab (Malus Sargentii)

Chinese Crab (Malus spectabilis)

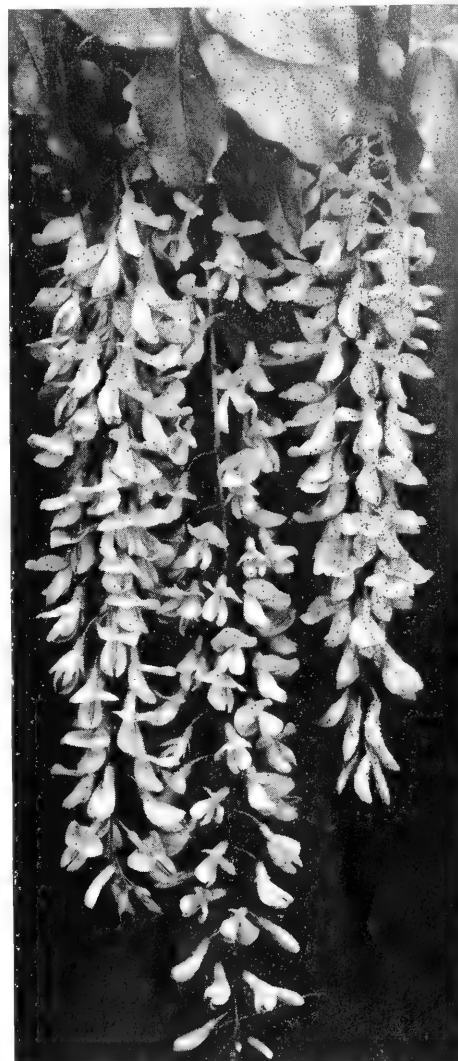

FLOWERING TREES—Continued

Prunus—Flowering Cherries

These are the Oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

Prunus serrulata Am-anogawa. A slender erect tree to 25 ft. with deep pink buds opening to light pink flowers in stiff clusters. Excellent with evergreen background. M 4 to 5 ft. hgt. BR.\$5.00

P. s. Kwanzan. Outstanding in the double pink flowering Cherries. Flower buds are rose red opening to clear pink "puffs" over 2 in. across. A large tree with wide spreading branches. M 4 to 5 ft. hgt. BR.\$5.00

Goldenchain (Laburnum Watereri)

Flowering Plum (Prunus c. Pissardii)

Prunus serrulata Shirofugen. Double flowers pink in the bud but opening white; an old favorite. M 4 to 5 ft., BR.....\$5.00

P. Sieboldii Naden. A double, deep pink variety of upright growth. F. 4 to 5 ft. hgt.\$5.00

P. Subhirtella, Beni Higan. A small, upright tree with gay, bright pink single blooms. F 4 to 5 ft., BR.....\$5.00

Weeping Cherries

Prunus subhirtella pendula (WEeping JAPANESE CHERRIES). A pendulous form of the well-known Flowering Cherries so admired at Washington, D. C. Bright pink flowers in great profusion in early Spring. S 4 yr. 6 ft. stems.....\$15.00

Flowering Plum

Prunus cerasifera Pissardii (PURPLE-LEAVED PLUM). A lovely, small flowering tree with purple foliage and the daintiest pink blossoms. A delightful addition to the landscape. F 5 to 6 ft. hgt.....\$5.00

Sorbus—Mountainash

Sorbus Aucuparia (EUROPEAN MOUNTAINASH). Well-formed tree with small leaves and bearing large clusters of orange-red berries. M

5 to 6 ft. hgt. BR.....\$3.75	8 to 10 ft. hgt.....\$7.50	2 to 2½ in. cal.....\$15.00
6 to 8 ft. hgt. BR.....5.00	10 to 12 ft. hgt.....9.00	2½ to 3 in. cal.....25.00

Styrax japonica

Japanese Storax

Pure white, sweet-scented little bell-shaped flowers hang all along the branches in June, creating a charming, graceful effect. A handsome, spreading type of large shrub or small tree with glossy leaves seldom growing taller than 15 feet. A good lawn specimen.

3 to 4 ft. hgt.....\$4.75

A ROSEDALE GIFT CERTIFICATE

The Answer To Your Gift Problems

A plant or tree is always in good taste—always welcome—always suitable for any occasion—Birthdays, Easter, Christmas, House-warmings, Anniversaries, or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nurseries. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Rosedale Gift Certificate is so worded that either the particular plant OR the amount given may be specified. For a gift certificate, just SEND US:

1. The name and address of the person who is to receive the certificate.
2. YOUR name and address.
3. Your check or money order for the amount of the gift.

WE WILL: 1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Rosedale Gift Certificate and more and more people are using this intriguing way of remembering—and being remembered.

Oxydendrum

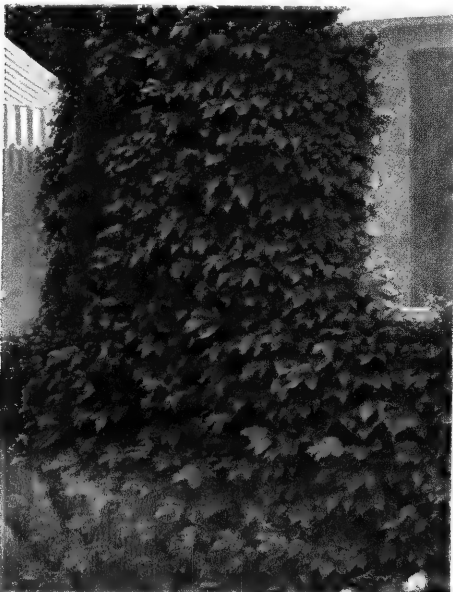

Bittersweet
(*Celastrus orbiculatus*)

Clematis

- Clematis dioscoreifolia paniculata** (OLD-FASHIONED CLEMATIS). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen, and the feathery seeds are also decorative. A real addition to the home. F
2 yr.95c. each, \$10.00 per doz.
3 yr. heavy potted. \$1.25 each
- C. Jackmanii** (PURPLE CLEMATIS). Large, purple single flowers from June to August. Striking. M
No. 1, 2 yr. \$1.00 each, \$10.00 per doz.
6 in. pots. \$1.25 each
- C. J. Mme. Andre**. Large, red single flowers throughout the Summer. S
No. 1, 2 yr. \$1.00 each | 6 in. pots. \$1.25 each
- C. J. Ramona**. Large, lavender-blue single flowers throughout the Summer. S
No. 1, 2 yr. \$1.00 each | 6 in. pots. \$1.25 each
- C. montana rubens**. The rosy red, Anemone-like flowers turn pink with age. Rich dark foliage. Vigorous grower, reaching 15 ft. Hardy. F
No. 1, 2 yr. \$1.00 each | 6 in. pots. \$1.25 each

Euonymus

- Euonymus Fortunei vegetus** (EVERGREEN BITTERSWEET). Low spreading shrub, but will climb high on masonry walls; orange berries. M
12 to 15 in.75c. each, \$7.50 per doz.
15 to 18 in. \$1.25 each
- E. F. radicans**. Smaller, more pointed leaves with white veins distinguish this form from the more rapid growing *E. F. vegetus*. S
10 to 12 in. .85c. each | 12 to 15 in. . \$1.25 each

Boston Ivy

Hardy Climbing Vines

Our cheery, reliable Vines—some evergreen, many flower-bearing—transform bare walls and fences and fill in and soften new, undeveloped plantings, creating a feeling of warmth, beauty and permanence. To aid you in starting a quick vine growth, we have preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

For planting Vines, please see directions for planting bare root material on page 26.

Akebia

- Akebia quinata**. A very graceful, rapid-growing vine. The foliage is extremely attractive and the rosy-purple flowers in May are followed by ornamental fruit. F
2 yr.95c. each, \$10.00 per doz.

Campsis—Trumpet Vines

- Campsis radicans** (TRUMPET CREEPER). Orange-scarlet, trumpet-shaped flowers in clusters from July to September; rapid grower but does not flower young. Must be supported. F
2 yr. \$1.00 each, \$10.00 per doz.
- C. tagliabuana, Mme. Galen**. An especially fine variety, similar to above but with very large, striking salmon-red trumpets. We highly recommend this decorative vine. M
2 yr. \$1.25 each

Celastrus orbiculatus—Oriental Bittersweet

- Well-known, native Bittersweet. Splendid for fences and rocks or will make a shrub. The Oriental variety differs from the native only in that it bears more berries. F
2 to 3 ft.95c. each, \$10.00 per doz.

Wisteria

Ivies

- Hedera helix** (ENGLISH IVY). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover, plant in mass under trees or other shady or semi-shady locations. M
3 in. pots. 40c. each, \$4.50 per doz.
4 in. pots, h'vy plants. 85c. each, \$9.00 per doz.
- H. Roumanian Ivy var.** Hardier strain of English Ivy.
3 in. pots. 40c. each, \$4.50 per doz.
- Parthenocissus quinquefolia** (VIRGINIA CREEPER, or WOODBINE). This vigorous, handsome vine is particularly striking, with its Fall coloring. Especially recommended for walls and fences. F
2 yr.95c. each, \$10.00 per doz.
- P. tricuspidata veitchii** (BOSTON IVY). Closely clinging vine with medium sized leaves, turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone, or stucco walls. M
2 yr.95c. each, \$10.00 per doz.

Silver Lace (*Polygonum*)

Lonicera japonica Halliana Honeysuckle

- Semi-evergreen ground cover or vine with fragrant yellow and white flowers. Indispensable where thick, quick coverage is desired. F
2 yr. 40c. each, \$4.50 per doz., \$35.00 per 100

Polygonum Aubertii Chinese Fleecevine

- Slender, vigorous vine for arbor, trellis or fence; curious silver-white flowers in tremendous profusion. F
2 yr., field-grown. \$1.00 each, \$10.00 per doz.
6 in. pots. \$1.25 each

Wisteria sinensis Chinese Wisteria

- Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M
2 yr. \$1.75 each | 4 yr. \$2.75 each | 5 yr. \$4.00 each
XX Heavy, \$7.50 each

Clematis, Mme. Edouard Andre

FRUIT TREES *Plant More Fruit Trees*

Fruit trees are just as decorative as any ornamental and they provide wonderful shade also. Homeowners may now easily care for fruit trees with new, improved, simplified sprays and enjoy both fruit and bloom.

Special Premium Offer

To encourage home fruit planting we will present a 2-year-old Cortland Apple tree with every single order for any stock whatsoever amounting to ten dollars or more purchased at the nursery. This offer good to May 15th or as long as supply lasts. One to a customer.

The Cortland Apple is a high quality fruit of bright red color, good size and firm flesh. Cortland ripens in Fall about early September. The tree is shapely and strong. Heavy blossoming is characteristic and it seldom needs a pollinizer.

LANDSCAPE SIZE FRUIT TREES

We offer many varieties of fruit trees which are large enough for immediate effect. These trees have been transplanted, trimmed and shaped, and are ready to bear fruit almost immediately.

Landscape Fruit Trees are dug with a generous ball of earth insuring quick starting and make fine ornamental and shade trees as well as furnishing delicious fruit.

Taylor Raspberries

2-Yr.-Old Apple Trees

The best size to plant for a good-sized orchard but will take 4 years or more to bear. Plant 30 feet apart.

Selected No. 1 Grade, 11 16 in. cal., 5 to 7 ft.—Each \$1.75

Superior Strains—3 for \$5.00

- Baldwin.** Red, Winter Apple. Juicy, crisp, self-fruitful.
- Cortland.** An all-purpose Winter Apple of improved McIntosh type. McIntosh flavor and quality but clings to tree more than McIntosh. Because of its high quality we have selected this variety for our Premium offer; seldom needs a pollinizer.
- Delicious, Red.** Large, red Winter Apple of crisp, fine flavor. Cross pollinators: Cortland, McIntosh.
- Delicious, Yellow.** Golden yellow Winter Apple. Firm, juicy. Self-fruitful.
- Gravenstein.** Red. Red Autumn Apple. Crisp, tart. Self-fruitful.
- McIntosh, Red.** Red Winter Apple. Tender, juicy. Bears fairly young. Cross pollinators: Cortland, Red Delicious.
- Red Astrachan.** Crimson, Summer Apple. A favorite. Cross pollinators: McIntosh, Red Delicious.

R. I. Greening. Large, yellow-green Autumn Apple unexcelled for cooking. Self-fruitful.

Yellow Transparent. Pale yellow Summer Apple; abundant bearer; excellent for cooking. Cross pollinators: McIntosh or Delicious.

DWARF FRUITS

These excellent varieties provide the same good quality and size of delicious fruit as the large, standard trees yet they take up little room. Dwarf Fruit tree orchards are ideal for the smaller home grounds or around ranch-house type that "hugs the ground." Being dwarf, the fruit is easily picked.

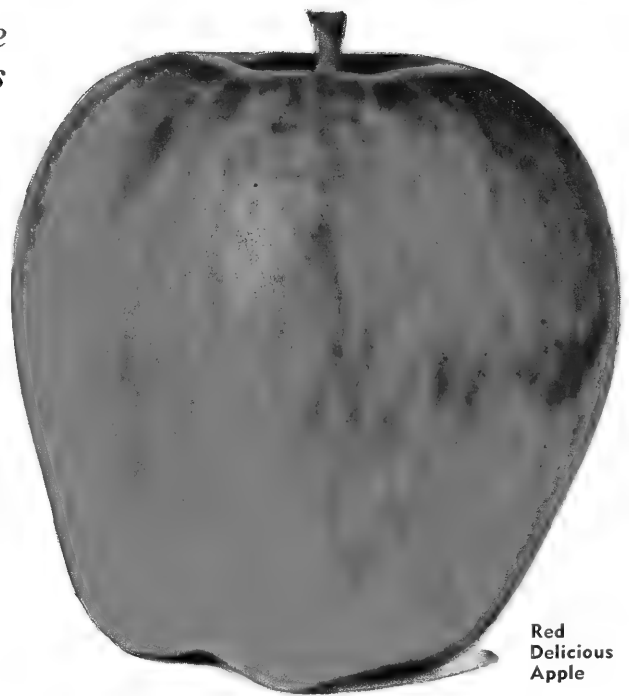

Rosedale's Dwarf Fruit trees are sturdy, vigorous growers, properly grafted on the best Malling root stock.

APPLES:

Baldwin	Cortland	Early McIntosh
McIntosh	Northern Spy	Red Delicious
2 year—9/16 inch caliper		
4 to 5 ft.....	\$3.75 each	

PEARS:

Bartlett	Clapp's Favorite
Duchesse D'Angouleme	
2 year, 9/16 in. caliper	
3 to 4 ft.....	\$3.00 each

Red Delicious Apple

CRABAPPLE

Selected, No. 1 Grade—11 16 in. caliper—5 to 7 feet \$1.75 each, 3 for \$5.00

All these varieties are self-fruitful. Plant 15-20 feet apart.

Dolgo. Handsome Red Crabapple in early September. Hardy, productive, juicy. Superb for ruby-red jelly, pickling, and exceptionally good for cider.

Hyslop. Brilliantly colored, purple-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo

CHERRIES

1-year-old—11/16 in. caliper—4 to 6 feet—Top Grade \$2.50 each, 3 for \$7.00

Plant any two Sweet Cherries for cross pollination.

Plant Sour Cherries 15 to 20 ft., Sweet Cherries 25 to 30 ft. apart.

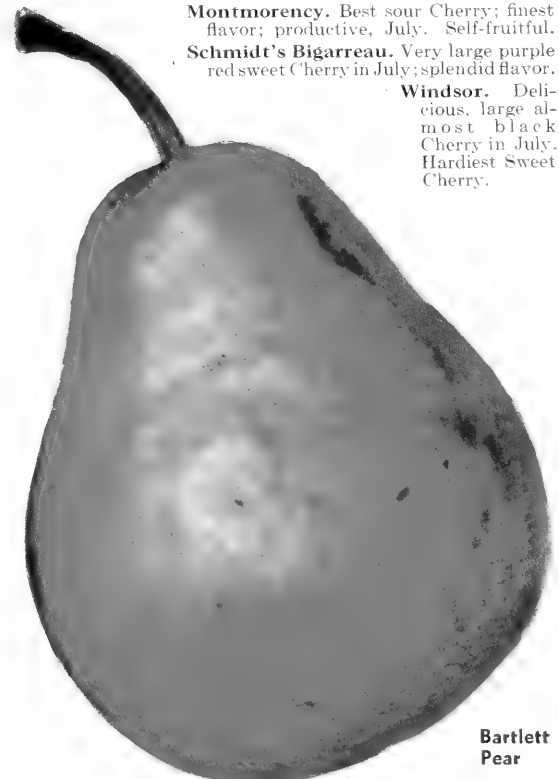

Black Tartarian. Large, black sweet Cherry; juicy, very rich; late June productive. June.

Governor Wood. Large, light yellow and red sweet Cherry. Very productive. June.

Montmorency. Best sour Cherry; finest flavor; productive, July. Self-fruitful.

Schmidt's Bigarreau. Very large purple red sweet Cherry in July; splendid flavor.

Windsor. Delicious, large almost black Cherry in July. Hardest Sweet Cherry.

Bartlett Pear

SMALL FRUITS

PLANTING SUGGESTIONS:

1. Plough or spade entire planting area to depth of 8 inches or more.
2. Open a narrow trench and mix a liberal quantity of Farmanure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Farmanure.
5. Water thoroughly twice weekly until started.

Alfred BLACKBERRIES

Tremendously large berries from 1½ to 1¾ in. long, practically free from seeds and extremely juicy. Heavy, 2 year transplants.

6 for \$1.50, 12 for \$2.75

Poorman GOOSEBERRIES

A large, red Gooseberry of excellent quality; prolific. Midseason. 2 year, 90c. each, 3 for \$2.50.

HARDY GRAPES

Caco. Finest wine-red Grape of sweet, delicious flavor; large; early September. 2 yr., 75c. each.

Concord. Blue-black; mid-September. Most successful in this area. 2 yr., 50c. each.

Fredonia. Earliest and best black Grape. Hardy, productive, juicy. 2 yr., 50c. each.

Golden Muscat. New, luscious golden yellow type; vigorous, productive. 2 yr., \$1.00 each.

Niagara. Extra large, sweet, white Grape about mid-September. 2 yr., 50c. each.

Portland. New and largest white Grape, very good for this section; very early, about late August. Delicious. 2 yr., 50c. each.

Red Lake CURRANTS

Finest of all Red Currants; unusually large and superior in quality. Long, full clusters. Heavy yields. 2 yr., 65c. each, 3 for \$1.75.

Cultivated BLUEBERRIES

For Extra Large, Juicy Berries of Delicious Flavor and Texture

Wonderful eaten fresh-picked, or in pies or frozen. Besides being hardy and heavily productive, Blueberries make handsome landscaping plants with their compact, bushy form and colorful fall foliage.

PLANT in hole large enough to accept roots spread out. Mix plenty of peat moss or humus with soil. Mulch.

All plants are 3 years old, 1½ to 2 feet high and ready to bear.

Atlantic, late; **Jersey,** late; **Rancocas,** mid-season; **Rubel,** late; **Stanley,** late.

Each order will contain three or more varieties for cross pollination.

\$1.40 each, 3 for \$4.00, 5 for \$5.50, 12 for \$11.50

RASPBERRIES

All 2-Year, No. 1 Transplants
6 for \$1.65, 12 for \$2.95

Bristol. Highest quality, heavy producing Black Cap. Unexcelled for canning and freezing.

Indian Summer. Red EVERBEARING of choicest flavor and quality. Produces in mid-June and again in early September. Hardy, vigorous.

Morrison. A new giant Black Raspberry of fine flavor and less seedy than most. Strong, vigorous.

Sodus. Outstanding purple Raspberry. Very large and very productive. Firm fruit and hardy.

Taylor. NEW, red, long, conical berry of firm, thick flesh and excellent flavor. Hardy, productive. Late June.

We recommend for a family of four the following number of plants, depending, of course, on your appetite for fruit:

Blackberries.....	1 dozen plants
Blueberries.....	1 dozen plants
Currants.....	6 plants
Gooseberries.....	6 plants
Grapes.....	4 to 10 plants
Red Raspberries.....	1 to 2 dozen plants
Black Raspberries.....	1 dozen plants

Cultivated Blueberry

FRUIT TREES—Continued

PEACHES

Selected, 1-yr. Budded Trees—9/16 in. caliper
4 to 5 feet—\$1.50 each, 3 for \$4.00

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

Belle of Georgia. Favorite white freestone Peach, ripening late August.

Early Elberta. Excellent, new yellow freestone late August.

Elberta. Most popular yellow Peach. Juicy, freestone, early September.

Golden Jubilee. Best, early, golden-yellow Peach. Freestone; mid-August.

Hale-Haven. Beautiful, hardy yellow freestone about late August.

Red Haven. Earliest yellow freestone—mid-August; of excellent flavor and yield.

Valiant. Juicy, yellow freestone like Elberta. Early September.

Moorpark APRICOT

Large, round, orange fruit with red cheek. Rich-flavored, juicy. Self-fruitful. Plant 15 to 20 feet apart. 2 year, 11/16 in. caliper, \$2.00 each.

ORANGE QUINCE

An excellent large, round, golden yellow fruit; fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 feet apart.

1 year, ½ in. caliper.....\$2.00 each

PLUMS

Selected, No. 1 Grade—2 Years Old
11/16 in. caliper, \$2.25 each, 3 for \$6.00

Plant 15 to 20 feet apart

Abundance. Large, very tender, sweet, juicy; good for canning. Early August. Amber turning to red

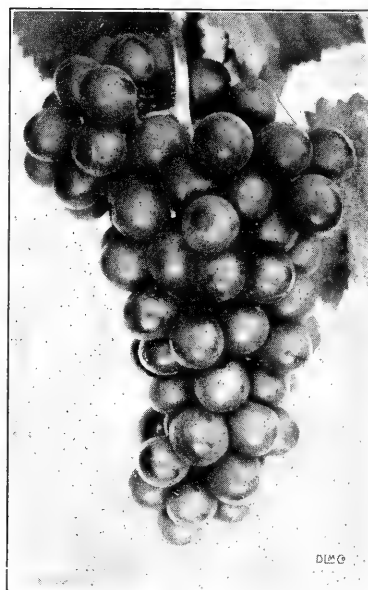

Burbank. Large, cherry-red Plum about mid-August. Good producer.

Reine Claude (Green Gage). Large and rich-flavored in early September. Cross-pollinate with Stanley or other American or European variety.

Stanley. Large, deep bluish-purple about early September. Excellent, sweet flavor.

For cross-pollination: Abundance and Burbank are Japanese varieties and should be planted together.

Stanley, an American variety is self-fruitful. American and Japanese varieties do not mix.

The Concord Grape

FRUIT TREES—Continued

PEARS

Selected, No. 1 Grade — 2 Years Old —
11/16 in. caliper—\$2.25 each, 3 for \$6.00

All Pears are self-unfruitful so plant with another Pear for cross-pollination. Plant 15 to 20 feet apart.

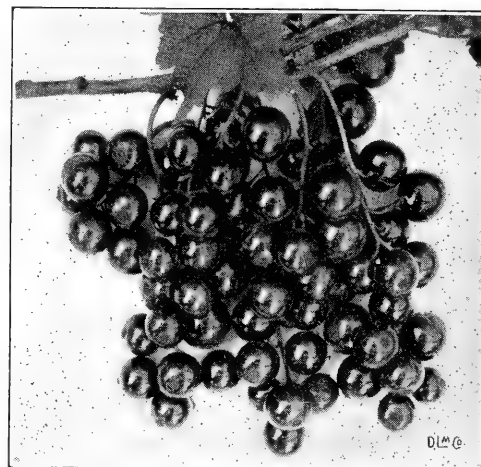

Bartlett. Most popular all-purpose Pear. Large, golden-yellow fruit with pale blush; excellent flavor. Will not cross with Seckel. August-September.

Beurre Bosc. Large, deep-yellow overspread with russet. Unsurpassed in quality and flavor. September.

Clapp's Favorite. Large, yellow fruit with brown flecks like Bartlett but ripens about 2 weeks earlier.

Seckel. Small, delicious russet brown Pears in October. Bears abundantly.

Sheldon. Large, round, russet and red Pear of first quality and flavor. October.

New Red Lake Currants

High Analysis Fertilizers

Agrico for Lawns, Trees and Shrubs

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use Agrico in rebuilding lawns. Also, feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs.....	\$0.48	25 lbs.....	\$1.70
10 lbs.....	.85	50 lbs.....	2.55
100 lbs. (two 50's).....\$5.00			

Agrico for Gardens

Use this special-purpose AGRICO for flowers of greater health and beauty—and for larger yields of vegetables, richer in minerals and vitamins. Use 40 lbs. per 1000 square feet.

5 lbs....	\$0.48	25 lbs....	\$1.70
10 lbs....	.85	50 lbs....	2.35
100 lbs. (two 50's)....\$4.55			

Agrico for Broadleaf Evergreens

Rhododendrons, Azaleas and other acid-loving plants must be fed with care. This AGRICO provides all needed plant foods and also acidifies the soil essential for best results. Use approximately 1½ lbs. per 1000 running feet.

5 lbs.....	\$0.63	25 lbs.....	\$2.20
10 lbs.....	1.15	50 lbs.....	3.00
100 lbs. (two 50's).....\$5.80			

High Organic Fertilizers

AGRINITE

An all-organic fertilizer; 8¼% nitrogen, 100% organic. This is not an animal manure or sewage by-product. It is clean, dry and grease-free with no offensive odor. It is easy to apply by hand or by spreader being carefully ground and screened to assure a free-flowing product. Use at rate of 4 lbs. per 100 square feet.

25 lbs.....	\$1.60	50 lbs.....	\$2.85
80 lbs.....\$4.30			

ESPOMA

A new and complete organic fertilizer. We believe Espoma to be one of the best organic fertilizers on the market. Peat Moss, Manure and Bonemeal, etc. are used to give this soil conditioner and fertilizer its long-lasting value.

25 lbs.....	\$1.60	50 lbs.....	\$2.65
100 lbs.....\$4.25			

FARMANURE

An organic fertilizer comprised of manure and peat moss for lawns, trees and shrubs. Safe and easy to use by the amateur. Long-lasting.

25 lbs.....	\$1.50	50 lbs.....	\$2.50
-------------	--------	-------------	--------

HOLLY-TONE

An all-organic fertilizer especially suited to acid-loving plants such as Hollies, Rhododendrons, Dogwoods, Taxus, etc.

10 lbs.....	\$1.35	25 lbs.....	\$2.65
50 lbs.....\$4.25			

**BONEMEAL, SHEEP MANURE, ALUMINUM
SULPHATE and SUPERPHOSPHATE**
are available at current prices.

Soil Conditioners

IMPORTED HORTICULTURAL PEAT MOSS

This clean compressed peat so valuable as a mulch or for use liberally in planting Broadleaved Evergreens, Blueberries, etc., is a good soil conditioner for almost anything. Lightens heavy soils, retains moisture in light soils, stimulates root development.

Junior Bales.....	\$3.75	Standard Bales.....	\$4.95
-------------------	--------	---------------------	--------

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting to better the soil where top soil is poor. Sold in bulk.

Per Cubic Yard.....	\$9.50	Packed in sacks, 2 bushels,	\$1.95

TWO FINE ROSEDALE LAWN SEED MIXTURES for Any Purpose

Rosedale Special

Specially Prepared for Southeastern New York State Soils

A quality mixture of permanent grasses, mixed to our specifications for the usual soil condition in Westchester and nearby areas. Low weed content and high germination mean less seed is needed. Ideal for light shade or full sun. Sow at the rate of 6 lbs. per 1000 square feet.

2-lb. bags.....	\$2.45	10 lbs. (two 5's).....	\$12.00
5-lb. bags.....	6.10	25-lb. bags.....	27.50
50-lb. bag.....	\$52.50		

Rosedale Park

A quick starting mixture of good seed, especially recommended for patching old lawns or where it is difficult to condition soil. Contains some white clover and will produce a heavy turf. An economical all-purpose seed. Sow at the rate of 6 lbs. per 1000 square feet.

1 lb.....	\$0.80	25 lbs.....	\$17.60
5 lbs.....	3.65	50 lbs.....	34.40

SCOTT'S Lawn Care PRODUCTS

We have recommended and sold **Scott's Seed** for over 15 years and we believe that with this excellent, clean, weed-free seed you will be able to produce a fine, velvety lawn. **Scott's Seed** is famous for its high germination and freedom from weeds, and therefore, more economical. Even greater economy can be effected by using a **Scott Spreader** for sowing seed and fertilizer.

SCOTT'S LAWN SEED. For lawns in full sun, light shade. Triple cleaned 99.91% weedfree. Use 1 lb. per 250 square feet.

1 lb.....	\$1.50	10 lbs.....	\$14.35	50 lbs.....	\$71.00
5 lbs.....	7.35	25 lbs.....	35.50	100 lbs.....	140.00

SCOTT'S SPECIAL PURPOSE BLEND. Recommended for such locations as dense shade, poor, dry soils, terraces, playgrounds and other areas where growing conditions are not good and rugged turf is desired. Use 1 lb. per 200 sq. ft.

1 lb.....	\$1.25	10 lbs.....	\$11.95	50 lbs.....	\$59.00
5 lbs.....	6.15	25 lbs.....	29.50	100 lbs.....	115.00

SCOTT'S BENTGRASS. For a lawn like a golf putting green. Use 2 or 3 lbs. per 1000 sq. ft.

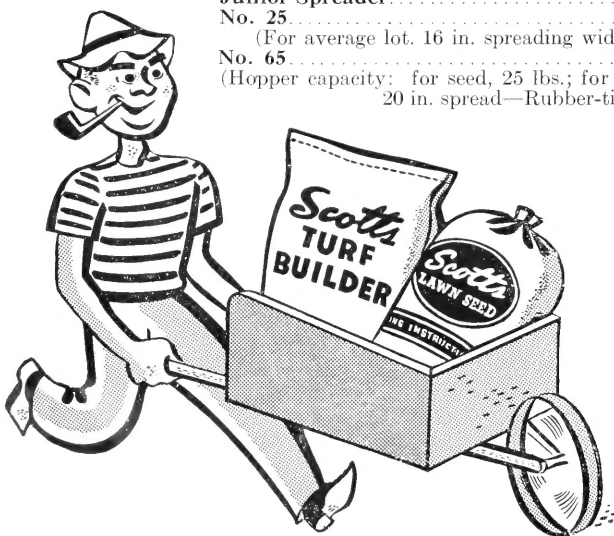

1 lb.....	\$1.95	5 lbs.....	\$9.35
-----------	--------	------------	--------

SCOTT'S CLOVER. For thickening lawns on poor soil. Clover is not included in Scott Mixtures because it is better to sow alone. Use 8 ozs. per 1000 sq. ft.

Small box (for 2500 sq. ft.).....	\$0.95	Large box (for 5000 sq. ft.)...	\$1.95
-----------------------------------	--------	---------------------------------	--------

SCOTT'S SPREADERS. Use a spreader for easy, economical application of seeds, fertilizers.

Junior Spreader.....	\$7.35
No. 25.....	\$12.50
(For average lot, 16 in. spreading width. Rubber-tired)	
No. 65.....	\$19.50
(Hopper capacity: for seed, 25 lbs.; for Turf Builder, 50 lbs. 20 in. spread—Rubber-tired)

10 lbs.....	\$1.35
25 lbs.....	2.50
50 lbs.....	3.95
100 lbs.....	7.85
500 lbs.....	35.00

SCOTT'S PEST CONTROL. To keep in check Japanese Beetle grubs, Chinch bugs, etc.

Box treats 500 sq. ft.....	\$0.95
Box treats 2500 sq. ft.....	\$3.50
Bag treats 11,000 sq. ft.....	\$12.75

SCOTT'S WEED AND FEED. A new, dry compound quickly applied with a spreader. Feeds grass as it destroys weeds. Use 2½ lbs. per 500 sq. ft.

Small box for 500 sq. ft.....	\$1.00	Bag for 11,000 sq. ft....	\$11.75
Box for 2500 sq. ft.....	2.95	10 bags for 2½ acres...	99.50

SCOTT'S 4-XD WEED CONTROL. For destroying broad-leaved weeds such as Dandelions, Plantain, Buckhorn without harm to lawn grasses. Apply dry as it comes in package. Use 14 ozs. per 500 sq. ft.

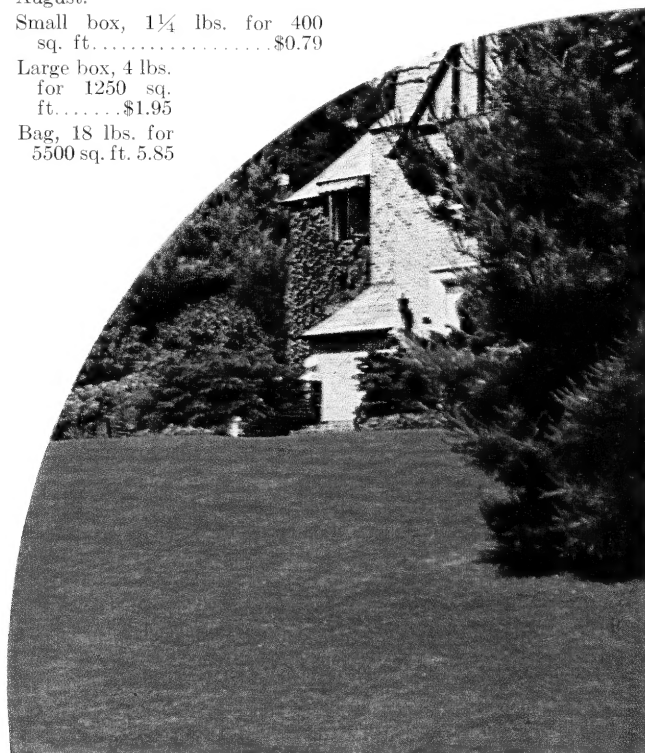

Small box for 500 sq. ft.....	\$0.49	Bag for 11,000 sq. ft....	\$4.85
Large box for 2500 sq. ft.	1.75	10 bags for 2½ acres....	39.50

SCOTT'S SCUTL—CRABGRASS CONTROL. Stops growth of Crabgrass without injury to lawn grasses. Apply dry in two applications. Double rate in July and August.

Small box, 1¼ lbs. for 400 sq. ft.....	\$0.79
--	--------

Large box, 4 lbs. for 1250 sq. ft.....	\$1.95
--	--------

Bag, 18 lbs. for 5500 sq. ft. 5.85

WILT-PRUF

The Revolutionary Plastic Latex Spray for Summer Transplanting

This NEW method of spraying plants so that they may be moved in hot weather in full leaf has been developed and used successfully for the past four years at Rosedale. By coating with a very fine film of plastic latex, which dries colorless on the plants, loss of moisture is radically cut down until new roots are grown and the plant becomes re-established in its new location.

The wilt and loss normally suffered from plants in full leaf is done away with.

By using this method on our stock our planting season is greatly extended and we can continue planting through the Summer—a real help to those of our customers who are unable to get to their country homes and gardens early in the Spring.

This coating is entirely non-toxic and is hardly discernible—showing only a slightly glossy sheen on the foliage. You will be delighted with this wonderful advancement in the handling of plant materials.

WILT-PRUF is packed in one gallon, five gallon and fifty-two gallon containers and is distributed nationally to the nursery trade. May be shipped from Eastview, New York; Ontario, California; Portland, Oregon; and Lexington, Kentucky.

General Information

This year we have tried particularly to make the information herein easier to obtain and more convenient for you to use and yet give you the necessary and pertinent facts.

Opinions and recommendations are based on growing habits observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

Although authorities differ we have tried to give you the consensus of opinion in coding our plant material as to speed of growth: S—Slow-growing M—Moderate-growing F—Fast-growing.

FREE Delivery Area
